REQUEST FOR SOLE/SINGLE SOURCE PURCHASE

DIRECTIONS:

Complete this form for all purchase requests with a sole/single source vendor. Name: Ryan Anderson

Date: 9/08/26

Division/Department: Fire/Rescue

ITEM DESCRIPTION: Firefighting turnout gear is the primary PPE ensemble required for firefighters responding to structural fires. Each Globe G-Xtreme Pro jacket and pants ensemble consists of three fire, heat, and vapor-resistant layers, providing firefighters with the protection they need during firefighting activities. The current CFR turnout gear specification meets all applicable national standards, ensuring CFR firefighters receive top-of-the-line protection.

AMOUNT OF PURCHASE: \$331,491.60

STATE REASON FOR SOLE OR SINGLE SOURCE PURCHASE (CIRCLE ONE):

Curtis is the sole authorized distributor of MSA/Globe turnout gear in the region. In 2022, Cheyenne Fire Rescue (CFR) selected MSA/Globe as part of a rigorous wear/trial test, and that gear continues to set the standard for CFR's turnout gear today. This decision followed CFR's past experiences with other turnout gear brands, which led the department to return to MSA/Globe. Since the 2022 purchase, CFR has continued to enjoy excellent customer service and a strong working relationship with both MSA/Globe and Curtis.

By way of background, in the fire service / first responder markets, MSA imposes specific requirements upon our distributors, which can result in a small number of distributors authorized to call upon a particular region. Accordingly, MSA's distributors are obligated to acquire and maintain extensive knowledge, training, and experience necessary to properly educate, assist and service our end user customers before, during and after the sale. MSA's fire service / first responder distributor qualification requirements are likewise intended to ensure the highest possible end user customer experience.
