MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council

From: Charles W. Bloom, AICP, Planning and Development Director

Subject: PLTA-24-4: An ordinance amending Chapter 10.82, Motor-assisted Scooters, Electric Bicycles, and Bicycles Equipped with GPS of Title 10, Vehicles and Traffic, of the Municipal Code of the City of Cheyenne, Wyoming, authorizing dockless vehicle companies to conduct business in the city using the city's formal procurement process, making a conforming amendment and repealing obsolete provisions.

Date: March 24, 2025

Background:

The item for consideration is an amendment to municipal code and is approved by Ordinance.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral: March 24, 2025
- Finance Committee: April 8, 2025
- Second reading: April 14, 2025
- Finance Committee: April 23, 2025
- Third and final reading: April 21, 2025

This ordinance establishes a formal process for selecting a single dockless vehicle (electric scooters) company to operate in Cheyenne through a Request for Proposal (RFP) system, aiming to improve communication with the provider and ensure market viability. Key RFP criteria include fleet size, operations and maintenance plans, safety measures, data sharing, community engagement, compliance, and potential revenue to the City.

The new system addresses challenges from the current model, where unlimited providers make City coordination difficult and market fragmentation prevents operators from offsetting costs. Additionally, the current model only requires a one-time \$200 annual license fee per provider and a \$5 annual fee per dockless vehicle.

Currently, dockless vehicle providers operate on a month-to-month license issued by the City Clerk's Office, with only one provider actively serving the City. They and other providers are awaiting the implementation of the RFP process and intend to submit proposals when it's posted. The RFP is set to be posted upon ordinance approval, with a new provider expected to be in place by June of this year.
