REQUEST: A request to rezone approximately 3.43 acres from AG-Agricultural to NR-3 – High Density Residential.

LOCATION: East of Powderhouse Road and north of Prairie Avenue.

APPLICANT: Village Cooperative

AGENT: AVI PC

OWNER: Section 20 LLC et AL

ZONING: AG Agriculture

FUTURE LAND USE: Urban Residential

PURPOSE: To allow for high density residential development.

PREPARED BY: Morgan Dennis, Planner I

RECOMMENDED MOTION:

Move to **approve** the rezoning of Lot 1, Block 1, Village Cooperative to NR-3 – High Density Residential as shown in the attached zone change map, noting that the project meets the review criteria for approval.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.2.1 Zoning Map Amendment
- UDC Article 5
- PlanCheyenne

BACKGROUND:

This zone change application proposes changing the zoning from AG Agricultural to NR-3 – High Density Residential for roughly 3.43 acres of land. The land is currently vacant. The land is projected to be used for high density residential development. There is an expedited plat accompanying this zone change.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning District	Land Use
Subject Site	Urban Residential	AG Agriculture	Vacant
North	Urban Residential	AG Agriculture	Vacant
South	Urban Residential	MUB – Mixed-Use Business	Vacant/Parking Lot
East	Urban Residential	LR Low-density Residential	Vacant
West	Urban Residential	AG Agriculture	Vacant

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Zoning Map Amendment, the Commission must make the following findings required in UDC 2.2.1.d. A detailed analysis is below:

- 1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.2.1.d.1)**

PlanCheyenne designates this area for future land development as Urban Residential. Urban Residential promotes a board variety of residential development types, including multi-unit residential developments. Within PlanCheyenne, it is outlined that these high-density developments are to be located near activity centers. The Frontier Mall area is designated as an activity center. Proposed development for the area is for senior housing development. This development is in line with development patterns described for future land use for urban residential. The zoning district of NR-3 – High Density Residential allows for a development of multi-unit senior housing development. The development is appropriate for the area as it continues to develop in the future.

The proposed zone change **complies** with review criterion 1.

2) The application is compatible with nearby property, specifically considering existing zoning, the Comprehensive Plan, and any other official plans and policies created under the guidance of that plan for these areas; (UDC 2.2.1.d.2)

The proposed NR-3 zone is compatible with nearby properties. Surrounding properties are zoned LR, AG, or MUB. The MUB parcel is a parking lot with the reminder of the land being vacant. The MUB zone is a mixed-use zone allowing for residential and commercial development. The residential portion of the MUB zone is tied to the NR-3 zone. Land that is currently assigned AG Agriculture will be used for agriculture purposes until rezoned for development. The LR is a low-density residential development that sits to the west of the parcel. Further south is dense commercial development that contain several businesses. Future land use map designates the area for Urban Residential. The NR-3 zone allow for number of residential developments to be built in the zone.

The proposed zone change for the subject property **complies** with review criterion 2.

3) The suitability of the subject property for development according to the standards and uses of the existing zoning district, compared to the suitability of the subject property for development according to the standards and uses of the proposed zoning district (UDC 2.2.1.d.3)

The current zone for the area is AG Agriculture, which would not allow for the proposed development to be built on the parcel. AG zone only allows for agricultural activities; activities that are not in line with future development plans. The proposed zone of NR-3 zone allows for a variety of residential uses, including multi-unit development, like an apartment complex. The proposed development on this parcel is for high-density senior housing development, which is allowed by right within the NR-3.

The proposed zone change **complies** with review criterion 3.

4) The ability of the subject property and surrounding vicinity to be developed according to the Subdivision Standards in Article 4 considering the proposed zoning (UDC 2.2.1.d.4)

This parcel is located within an oversize block. There is an expectation extension of Melton Street with be alongside the parcel. This extension will need up connecting with other street as the area continues to develop.

The proposed zone change for the subject property **complies** with review criterion 4.

5) The ability of the application to support the Intent and Applicability statements of the proposed zoning district and achieve the Design Objectives of any specific standards. (UDC 2.2.1.d.5)

The NR-3 zone district is intended for high-density, urban residential uses. Developments within the NR-3 zone should be more than 15 units an acre. This zone district should be used in areas where more compact neighborhood development is desired. This zone district should be near an activity center to maintain walking access to non-residential uses and other urban amenities. This district should be supported by highly connected street network with street design types that have a degree of pedestrian amenities. The location of this proposed zoning meets the intent and applicability found in the UDC for the NR-3 zone.

The NR-3 zone is subject to the UDC residential design standards, including the Compact and Mixed-Density Neighborhood Design standards. Staff believes that the developer can comply with applicable UDC standards.

The proposed zone change for the subject property **complies** with review criterion 5.

6) The ability of all potential future development to meet all applicable standards for development in the proposed zoning district, including other development options if any specific development proposed in association with the application is not executed after approval. (UDC 2.2.1.d.6)

Potential development for the parcel is senior residential housing in the form of an apartment complex. Within the NR-3 zone, this development would be allowed by right instead of needing a conditional use (a conditional use might be needed in a different residential zone).

Staff is confident that developer can meet UDC standards for any development.

The proposed zone change **complies** with review criterion 6.

7) The review and recommendations of other reviewing bodies. (UDC 2.2.1.d.7)

No major comments received in regard to the proposed zone.

The proposed zone change for the subject property **complies** with review criterion 7.

8) Whether the application will harm the public health, safety, or general welfare. (UDC 2.2.1.d.8)

City staff is satisfied that this proposed zone change would not adversely affect the public health, safety, or general welfare.

The proposed zone change for the subject property **complies** with review criterion 8.
