MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council
From: Connor White
Subject: PUDC-25-278 County Pocket Annexation #10 – Assigned Zoning
Date: February 9, 2026

Background:

The item for consideration is an Assigned Zoning. This is approved by Ordinance.

The proposed Governing Body review schedule is as follows:

- | | |
|-----------------------------|-------------------|
| • Introduction and Referral | February 9, 2026 |
| • Public Services Committee | February 17, 2026 |
| • Second reading | February 23, 2026 |
| • Public Services Committee | March 2, 2026 |
| • Third and final reading | March 9, 2026 |

Planning Commission Recommendation:

The Planning Commission heard this item at their February 2, 2026 meeting and recommended the Governing Body approve this application with the caveat that parcel 4 be evaluated for alternative Assigned Zoning prior to final adoption.

The Planning Commission Staff report is attached and has not been changed.

Further Staff evaluation of Parcel 4:

The current use of the property is a residence and an urban farm with a farm stand. These uses would be classified as "Limited Agriculture" and "Agriculture Product Sales" in the Unified Development Code. The Limited Agriculture use is only allowed in four zone districts with two of those being special zone districts. The zone districts are as follows: AG – Agricultural, AR – Agricultural Residential, AD – Airport District, and SS – Support Services. The AD and SS zones are special purpose zones and not applicable to this area.

The AG zone allows for all agricultural uses in some fashion, whether it is permitted as a use by right, administrative, or requires conditional use approval. This is the most flexible zone for agricultural uses and would allow the farm and farmstand to continue operations.

The AR zone allows for limited agricultural uses. This zone would make the farm stand non-conforming, and may be more limiting on the expansion of the agricultural operations.

ORDINANCE NO. _____

ENTITLED: “AN ORDINANCE AMENDING THE OFFICIAL ZONING MAP OF THE CITY OF CHEYENNE, ESTABLISHING THE ZONING CLASSIFICATIONS OF AG – AGRICULTURAL, MR - MEDIUM-DENSITY RESIDENTIAL, CB – COMMUNITY BUSINESS, AND LI – LIGHT INDUSTRIAL, FOR LAND ANNEXED TO THE CITY OF CHEYENNE GENERALLY LOCATED EAST OF I-25, SOUTH OF THE INTERSECTION OF WESTLAND ROAD AND MISSILE DRIVE, NORTH OF WEST AND EAST ALLISON ROAD, AND EAST OF AND ADJACENT TO NORTH COLLEGE DRIVE.”

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING:

Section 1. That in accordance with the calendar year 2022 goal of the Governing Body, City staff have petitioned the Governing Body for a zoning map amendment (zone change) for property generally located east of I-25, south of the intersection of Westland Road and Missile Drive, north of West and East Allison Road, and east of and adjacent to North College Drive in accordance with Section 2.2.1, Zoning Map Amendment, of the Cheyenne Unified Development Code (“UDC”).

Section 2. That Section 2.2.8 of the UDC provides standards and procedures for zoning districts established on land or property currently without a City zone assignment.

Section 3. That on February 2, 2026, the City of Cheyenne Planning Commission conducted a public hearing, reviewed the proposed zone changes that are the subject of this ordinance, and recommended approval of said zone changes, with the condition that Parcel 4 be evaluated for alternative Assigned Zoning prior to final adoption.

Section 4. That the Governing Body of the City of Cheyenne finds that the zone changes that are the subject of this ordinance meet the criteria specified in Section 2.2.8.d of the UDC.

CITY OF CHEYENNE PLANNING COMMISSION FEBRUARY 2, 2026 STAFF REPORT

FILE:	PUDC-25-278: County Pocket Annexation #10. – Assigned Zoning
LOCATION:	East of I-25, south of the intersection of Westland Rd. and Missile Dr., north of West and East Allison Rd. and east of and adjacent to North College Dr.
REQUEST:	Assigning City zones to properties that the City is annexing.
ANNEXATION APPLICANT:	City of Cheyenne
OWNER:	Various
CURRENT ZONING:	County LU, County CB, County LI, County URLD
PROPOSED ZONING:	AG, MR, CB and LI
FUTURE LAND USE:	Urban Residential, Mixed-use Residential, and Mixed-use Employment.
PURPOSE:	To establish a City zoning district concurrent with annexation.
PREPARED BY:	Connor White, Planner II

RECOMMENDED MOTION:

Move to recommend the Governing Body **approve** the assigned zoning for land east of I-25, south of the intersection of Westland Rd. and Missile Dr., north of West and East Allison Rd. and east of and adjacent to North College Dr. to AG Agricultural, MR Medium-density Residential, CB Community Business, and LI Light Industrial as shown in the attached zone change map, noting that the project meets the review criteria for approval.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.2.8 Assigned Zoning

BACKGROUND:

The City is annexing parcels that are 100% surrounded by current City Limits as part of Councils goals to annex county pockets. Annexation of a parcel requires a city zone to be established.

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Zoning Map Amendment, the Commission must make the following findings required in UDC 2.2.1.d. A detailed analysis is below:

- 1. The proposed zoning assignment is the most analogous City zone to the current zone when taking into consideration allowed uses, current uses, or surrounding City zones. Zoning shall be assigned a City zone based on:**
 - a. Permitted uses,**
 - b. Uses that could reasonably be anticipated for conditional use approval under the current zoning,**
 - c. Current uses, or**
 - d. Surrounding City zoning,****as deemed most suitable for the property being assigned a zone in terms of allowing the landowner to continue the current use of the land while respecting the current and anticipated uses of surrounding property.**

Through the reviewing of the County Pockets, the assigned zoning is somewhat straight forward.

Parcel 1

Parcel 1 is currently zoned LI – Light Industrial within the County. This pocket is mainly surrounded by City LI zoning and there is P – Public to the north. This pocket is designated Mixed-use Employment by the Future Land Use map. The current use of two of the properties is residential. The third property is owned by the City and used like an alley. The surrounding area is mainly commercial or industrial uses. Based on this information Staff believes that the **LI – Light Industrial** zone is the most analogous zone for this pocket. The LI zone does make the use of the residential properties non-conforming, but they were already non-conforming within the County under the County's LI zone.

Parcel 2

Parcel 2 is currently zoned LI – Light Industrial within the County. This pocket is surrounded by the LI zone. This pocket is a portion of the railroad and is not a parcel but more of a right of way. Based on this information Staff believes that the **LI – Light Industrial** zone is the most analogous zone for this pocket.

Parcel 3

Parcel 3 is currently zoned CB – Community Business within the County. This pocket is surrounded by the City CB zone and the LI zone to the north. This pocket is a portion of the railroad and is not a parcel but more of a right of way. Based on this information Staff believes that the **CB – Community Business** zone is the most analogous zone for this pocket.

Parcel 4

Parcel 4 is currently zoned LU – Land Use within the County. This parcel is surrounded by MR – Medium-density Residential to the north and west, HR – High-density Residential to the east, and A-1 to the south. The Future Land Use map designates this property as Urban Residential. The current use of the property is residential and agriculture. The property owner has stated that they have livestock and grow and sell crops. This is a large parcel that could be redeveloped in the future should it ever be sold or subdivided. Based on this information Staff believes that the **AG – Agricultural** zone is the most analogous zone for this pocket. The AG zone will allow the continuation of the current uses on the land but also allow for easier rezoning in the future.

Parcel 5

Parcel 5 is currently zoned URLD – Urban Residential Low Density within the County. This pocket has City MR to the east, CB to the north, and AG to the west. County zoning exists to the south. All parcels within this pocket are residential. The Future Land Use map designates this pocket as Urban Residential. Based on this information Staff believes that the **MR – Medium-density Residential** zone is the most analogous zone for this pocket. These properties are developed similar to MR zoned areas within the City.

Parcel 6

Parcel 6 is currently zoned LI – Light Industrial within the County. This parcel is surrounded by the City NR-3 Neighborhood Residential – High-density. There is CB zoning further to the west, County LI across Fox Farm and County LU a little further to the east. The current use of the property is limited industrial / commercial. The Future Land Use map designates this parcel as Mixed-use Residential. There are several zones that this property could be. Those zones are AG, NR-3, CB, MUR, MUB, MUE, or LI. The County LU to the east does allow for agricultural and residential uses, but the AG zone does not really fit for this parcel based on its current use and the potential uses of the surrounding land. The CB zone is to the west but is just vacant land, so CB zoning may not be the most appropriate. The future land use designation of MUR would point to MUR being the most analogous but it is a guiding document and not a set in stone when it comes to zoning. The four zones worth discussing are the NR-3, MUB, MUE and LI.

The NR-3 does surround the parcel and is being developed to the northwest and the north. The portions to the east and south are still vacant. This zone allows for mainly residential uses and would make the current use non-conforming. This does not mean the use could not continue as is, but if the property was to expand its current use it would require a conditional use before the Board of Adjustment. The NR-3 zone would also be more in line with the future land use designation of Mixed-use Residential.

The MUB zone would allow for more commercial focused development and allow for some limited industrial uses while also allowing similar residential development to that of the NR-3. The MUB would have stricter design requirements and would expect smaller block sizes. There is currently no MUB zoning in the area. The closest zone similar to the City's MUB is the County's MU Mixed-use to the southwest. The MUB would allow for the warehouse component on the property, but would not allow for the limited outdoor storage that exists. This means that if they wish to expand the limited outdoor storage they would need a conditional use.

The MUE zone would allow for more of the industrial and some commercial uses, but would only allow for multi-family development and not single-family like the MUB or NR-3. The MUE would give the balance of allowing the property's current uses while still allowing for multifamily development. There is only one property within City Limits that is zoned MUE. MUE is meant for campus like development, which is not what currently exists on the property, and it is unlikely a campus like development would happen in this location in the future.

The LI zone is the current County zone for the property and would have the least impact on the current use of the property. It would not allow for residential development in the future without a rezoning. To the south across Fox Farm is County LI zoning and LI uses. The NR-3 that is just south of the property is vacant and not owned by the same land owner to the north developing with multifamily. This land could be rezoned in the future to a commercial or industrial zone.

Staff believes that either the NR-3 or the LI zone could work for this property. Based on this information Staff believes that the **LI – Light Industrial** zone is the most analogous zone for this pocket because it would allow the continuation of the current uses and the land to the south even though its zoned NR-3 could be rezoned and not actually developed with residential. This land could also be rezoned in the future if it was sold to match the NR-3 to the north, but for now the LI zone would allow the land to continue as is and allow it to be used as it has been with out too many restrictions.

Parcel 7

Parcel 7 is currently zoned LI – Light Industrial and LU – Land Use within the County. This pocket is surrounded by AG zoning to the north, south and east. County LI zoning is to the west. The Future Land Use map designates this pocket as Mixed-use Employment. Two of the parcels are developed with industrial uses and one is developed with a residence. Based on this information Staff believes that the **LI – Light Industrial** zone is the most analogous zone for the parcels zoned LI in the County as it allows continuation of the current uses and is similar to that across College Drive. Staff believes that the **AG – Agricultural** zone is the most analogous zone for the parcel zoned LU in the County as it allows for the residential use and allows for easier rezoning in the future should the property ever redevelop.

This assigned zoning **complies** with review criterion 1.

STAFF REVIEW:

Through the review process, there were no comments.

CONCLUSION:

Staff is satisfied that the application meets the review criteria set forth in UDC 2.2.8.(d).

ALTERNATIVES:

1. Recommend approval of the Assigned Zoning as submitted by the applicant (**Staff Recommendation**).
2. Recommend approval of the Assigned Zoning subject to conditions or modifications.
3. Recommend denial of the Assigned Zoning based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
4. Postpone the Assigned Zoning until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

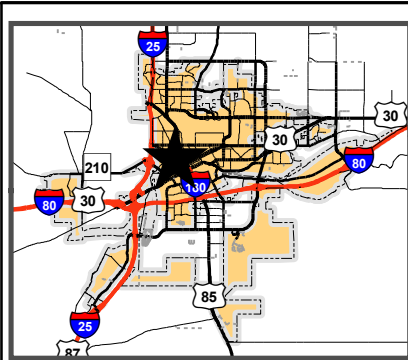

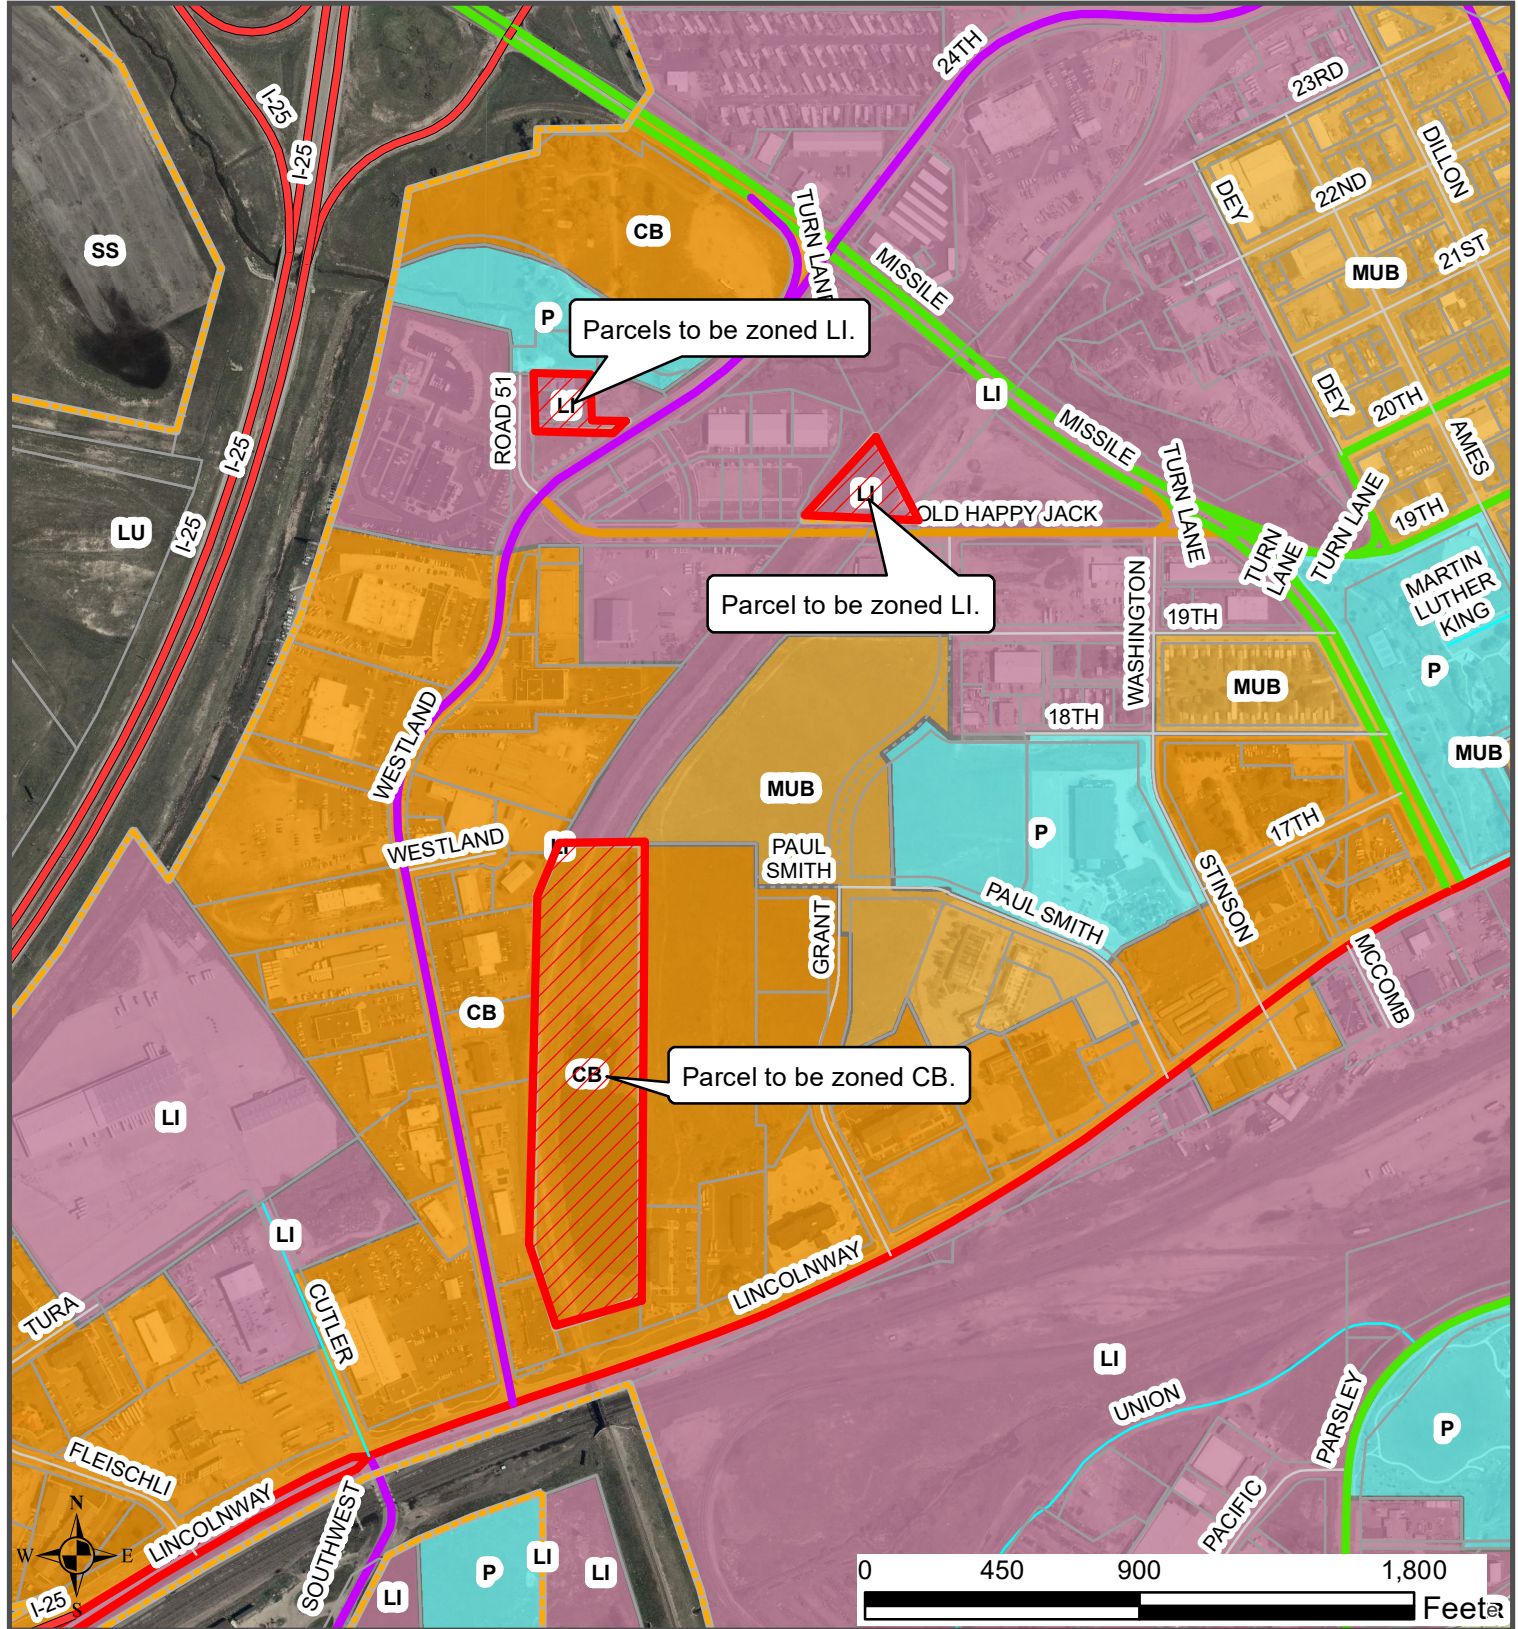

If the Commission acts contrary to staff's recommendation or recommends conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for their recommendation.

STAFF RECOMMENDATION:

Staff recommends approval of the assigned zoning for land east of I-25, south of the intersection of Westland Rd. and Missile Dr., north of West and East Allison Rd. and east of and adjacent to North College Dr. to AG Agricultural, MR Medium-density Residential, CB Community Business, and LI Light Industrial as shown in the attached zone change map, noting that the project meets the review criteria for approval.
