STAFF REPORT

FILE: **PUDC-26-27: Lot 2, Block 10, Harmony Valley, 1st Filing – Zoning Map Amendment (zone change)**

REQUEST: A request to rezone approximately 25.17 acres of land from Harmony Valley PUD to NR-3 Neighborhood Residential – High Density.

LOCATION: South of Allison Rd, west of Walterscheid Blvd, north of W College Dr.

APPLICANT: John Sayers

AGENT: John Sayers

OWNER: Tru-Grit Land Development

ZONING: Harmony Valley PUD

FUTURE LAND USE: Urban Residential, Mixed-Used Residential

PURPOSE: Remove this parcel from the Harmony Valley PUD and change to NR-3 zone.

PREPARED BY: Morgan Dennis, Planner I

RECOMMENDED MOTION:

Move to **approve** the rezoning of Lot 2, Block 10, Harmony Valley, 1st Filing to NR-3 Neighborhood Residential – High Density as shown in the attached zone change map, noting that the project meets the review criteria for approval.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.2.1 Zoning Map Amendment
- UDC Article 5
- PlanCheyenne

BACKGROUND:

This zone change application proposes changing the zoning from Harmony Valley PUD to NR-3 Neighborhood Residential – High Density for roughly 25.17 acres of land. The land is currently vacant.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning District	Land Use
Subject Site	Urban Residential, Mixed-Use Residential	Harmony Valley PUD	Vacant
North	Urban Residential, Mixed-Use Commercial	P Public, AG Agriculture	Vacant, Single-family Residential
South	Mixed-Use Commercial	MUB Mixed-Use Business	Multifamily
East	Urban Residential	Harmony Meadows PUD	Single-family residential dwellings
West	Public, Urban Residential, Mixed-Use Residential	P Public, NR-3 Neighborhood Residential – High Density	High School Complex, Vacant

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Zoning Map Amendment, the Commission must make the following findings required in UDC 2.2.1.d. A detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.2.1.d.1)

The Future Land Use Designation for this parcel is Urban Residential on the majority of the parcel and Mixed-Use Residential on a small southern portion of the parcel. According to PlanCheyenne, the Urban Residential portion of the parcel's designation creates an emphasis on residential development with secondary uses being complementary uses to the neighborhood. The Mixed-Use Residential designation is meant for an emphasis on residential developments

with secondary uses being retail, offices, and light trade that are related to the neighborhood function.

The NR-3 zone district allows for a variety of residential developments with an emphasis on high density residential uses.

Based on the policies and future land use map, NR-3 zoning is appropriate at this location.

The proposed zone change **complies** with review criterion 1.

2) The application is compatible with nearby property, specifically considering existing zoning, the Comprehensive Plan, and any other official plans and policies created under the guidance of that plan for these areas; (UDC 2.2.1.d.2)

The proposed NR-3 zone would be an extension of the existing NR-3 zone to the abutting to the parcel to the west. The proposed NR-3 is surrounded by parcels that are zoned P Public to the west, Harmony Meadow PUD to the east, and MUB to the south. There is a parcel to the north that is currently undergoing a zoning change from AG to NR-3. Much of the current development in the area is residential development along with associated neighborhood uses.

The existing zone (the Harmony Valley PUD) has designated this parcel as Medium Density Residential. The PUD Medium Density permitted uses are similar to the NR-3 permitted uses. Both plans promote the use of more intense residential developments. The NR-3 allows cottage lots by right.

The proposed zone change for the subject property **complies** with review criterion 2.

3) The suitability of the subject property for development according to the standards and uses of the existing zoning district, compared to the suitability of the subject property for development according to the standards and uses of the proposed zoning district (UDC 2.2.1.d.3)

The existing zone is Harmony Valley PUD. In accordance to the existing PUD, this parcel is listed as Medium Density Residential, which is compatible with the NR-3 allowed uses. It is to be noted that there are certain uses that are permitted within the NR-3 that are not allowed within PUD parameters.

The proposed zone change **complies** with review criterion 3.

4) The ability of the subject property and surrounding vicinity to be developed according to the Subdivision Standards in Article 4 considering the proposed zoning (UDC 2.2.1.d.4)

The NR-3 zone encourages small block development. The property will be required to connect to existing or future development. Pedestrian accesses will be encouraged where street access is not feasible. Infrastructure (streets and utilities) exist in the area. Water and sewer will likely need to be extended to the area.

The proposed zone change for the subject property **complies** with review criterion 4.

5) The ability of the application to support the Intent and Applicability statements of the proposed zoning district and achieve the Design Objectives of any specific standards. (UDC 2.2.1.d.5)

The NR-3 district is intended to be used for high-density, urban residential use with consistent neighborhood character. The regulations are meant to protect the neighborhood character of the district and protect the primarily residential use of land.

The applicability to areas where more compact neighborhood development patterns are desired, specifically the Urban Residential Care in the Cheyenne Comprehensive Plan.

Typically, this district is located no more than ¼ mile or up to four blocks from any existing or planned Activity Center. Isolated application of this district without adjacency to activity center should be avoided so that significant concentrations of density does not exist without walking access to non-residential uses and quality urban amenities. This district should be supported by a highly connected street network with street design types that have a high degree of pedestrian amenities.

This parcel is located between a school and existing neighborhood. There is not a nearby activity center, but there is commercial development to the northeast and east, with limited non-residential developments to the south along College. There is an existing pedestrian network in the area. This would be an appropriate zone to all the desired compact neighborhood development.

The proposed zone change for the subject property **complies** with review criterion 5.

6) The ability of all potential future development to meet all applicable standards for development in the proposed zoning district, including other development options if any specific development proposed in association with the application is not executed after approval. (UDC 2.2.1.d.6)

The NR-3 zone is a high-density residential zone that is similar to the existing PUD designation. All the residential uses that are allowed by right within the PUD designation of this property are allowed in the NR-3 zone.

The proposed zone change **complies** with review criterion 6.

7) The review and recommendations of other reviewing bodies. (UDC 2.2.1.d.7)

No major comments received in regard to the proposed zone.

The proposed zone change for the subject property **complies** with review criterion 7.

8) Whether the application will harm the public health, safety, or general welfare. (UDC 2.2.1.d.8)

City staff is satisfied that this proposed zone change would not adversely affect the public health, safety, or general welfare.

The proposed zone change for the subject property **complies** with review criterion 8.

CONFORMANCE WITH APPLICABLE PLANS:

The project is located in an area covered by the following plans:

- PlanCheyenne

Conformance with PlanCheyenne is covered by review criterion 1.

STAFF REVIEW:

Through the review process, review comments were received expressing the appropriateness of the NR-3 zone at this location.

CONCLUSION:

Staff is satisfied that the application meets the review criteria set forth in UDC 2.2.1.(d). The NR-3 zone is appropriate based on the future land use map, surrounding zoning, surrounding development patterns, and proposed development.

ALTERNATIVES:

1. Recommend approval of the zoning amendment as submitted by the applicant (**Staff Recommendation**).
2. Recommend approval of the zoning amendment subject to conditions or modifications.
3. Recommend denial of the zoning amendment based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
4. Postpone the zoning amendment until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

If the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

STAFF RECOMMENDATION:

Staff recommends approval of the rezoning of the property from Harmony Valley PUD to NR-3.
