CITY OF CHEYENNE PLANNING COMMISSION
NOVEMBER 3, 2025
STAFF REPORT

FILE: PUDC-25-222: KT Subdivision – Assigned Zoning

LOCATION: West of Converse Ave and North of East Carlson St

REQUEST: Assigning City zones to approximately 23 acres of land from AG Agricultural and CB Community Business to NR-3 Neighborhood Residential – High Density

ANNEXATION APPLICANT: Kelly Hafner

OWNER: Section 20 LLC et AL

CURRENT ZONING: AG Agricultural

PROPOSED Zoning: NR-3 Neighborhood Residential – High Density

FUTURE LAND USE: Urban Residential and Mixed-use Commercial

PURPOSE: To allow for further residential development within city limits.

PREPARED BY: Morgan Dennis, Planner I

RECOMMENDED MOTION:

Move to recommend the Governing Body **approve** the assigned zoning for land west of Converse Ave and north of East Carlson St to NR-3 Neighborhood Residential – High Density as shown on the attached zone change map, noting that the project meets the review criteria for approval.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.2.8 Assigned Zoning
- UDC Article 5
- PlanCheyenne

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning District	Land Use
Subject Site	Urban Residential	AG Agricultural/ CB Community Business	Vacant
North	Urban Residential	County LU – Land Use	Vacant/Agriculture
South	Urban Residential	NR-3 – Neighborhood Residential – High Density	Multi-dwelling
East	Urban Residential	County LU – Land Use	Vacant/Agriculture
West	Urban Residential	County LU – Land Use	Vacant/Agriculture

BACKGROUND:

This zone change application proposes changing the zoning from AG Agricultural and CB Community Business to NR-3 Neighborhood Residential – High Density for roughly 20.41 acres of land. The land is currently vacant. The current AG zone was assigned by the City as a holding zone until the applicant determined a zone that would allow for development of the parcel.

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Zoning Map Amendment, the Commission must make the following findings required in UDC 2.2.1.d. A detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.2.1.d.1)

PlanCheyenne encourages growth within the Urban Service Boundary and the maximization of existing infrastructure. This property is within the Urban Service Boundary, in an area with infrastructure that is currently being built.

The Future Land Use Designation for this property is Urban Residential and the surrounding area is Urban Residential and Urban Transition Residential. According to the comprehensive plan the optimal City zones for the subject property's future land use designation is any one of the residential zones, including NR-3.

Based on the policies and future land use map, NR-3 zoning is appropriate at this location.

The proposed zone change **complies** with review criterion 1.

2) The application is compatible with nearby property, specifically considering existing zoning, the Comprehensive Plan, and any other official plans and policies created under the guidance of that plan for these areas; (UDC 2.2.1.d.2)

Surrounding properties in the City are zoned NR-3 – Neighborhood Residential - High Density. There is also a property zoned NR-3 located south of East Carlson St. NR-3 zoning is compatible with surrounding zoning.

The proposed zone change for the subject property **complies** with review criterion 2.

3) The suitability of the subject property for development according to the standards and uses of the existing zoning district, compared to the suitability of the subject property for development according to the standards and uses of the proposed zoning district (UDC 2.2.1.d.3)

The AG zone was assigned to this property as a holding zone and would only allow for agricultural type uses. NR-3 zoning is intended for smaller-block, compact development patterns. The NR-3 zone allows for a variety of residential type uses and allows multifamily as a use by right, which is a development style that has become more common recently.

The proposed zone change **complies** with review criterion 3.

4) The ability of the subject property and surrounding vicinity to be developed according to the Subdivision Standards in Article 4 considering the proposed zoning (UDC 2.2.1.d.4)

The subject property will need to be platted in the future and will need to meet the standards of Article 4. Due to the size of the parcel, staff believes the standards can be met.

Infrastructure (streets and utilities) are in the area and new streets and utilities can be extended to this parcel.

The proposed zone change for the subject property **complies** with review criterion 4.

5) The ability of the application to support the Intent and Applicability statements of the proposed zoning district and achieve the Design Objectives of any specific standards. (UDC 2.2.1.d.5)

The NR-3 zone is intended for a high density and mix of dwelling types that promote a consistent neighborhood character, with a compact development pattern and highly connected street

network. Due to the size of the lot, staff believes the applicant will be able to plat the property in a way that meets the intent of the zone district proposed.

The proposed zone change for the subject property **complies** with review criterion 5.

6) The ability of all potential future development to meet all applicable standards for development in the proposed zoning district, including other development options if any specific development proposed in association with the application is not executed after approval. (UDC 2.2.1.d.6)

The NR-3 zone allows a variety of residential uses. The NR-3 also has design standards required per UDC 6.6.4 which will need to be met for any residential development that is proposed for this area.

The proposed zone change **complies** with review criterion 6.

7) The review and recommendations of other reviewing bodies. (UDC 2.2.1.d.7)

Proposal meets comprehensive plan principles. No other comments were received from reviewers.

The proposed zone change for the subject property **complies** with review criterion 7.

8) Whether the application will harm the public health, safety, or general welfare. (UDC 2.2.1.d.8)

City staff is satisfied that this proposed zone change would not adversely affect the public health, safety, or general welfare.

The proposed zone change for the subject property **complies** with review criterion 8.

STAFF REVIEW:

Through the review process, there were no comments.

CONCLUSION:

Staff is satisfied that the application meets the review criteria set forth in UDC 2.2.8.(d).

ALTERNATIVES:

1. Recommend approval of the Assigned Zoning as submitted by the applicant (**Staff Recommendation**).
2. Recommend approval of the Assigned Zoning subject to conditions or modifications.
3. Recommend denial of the Assigned Zoning based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
4. Postpone the Assigned Zoning until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

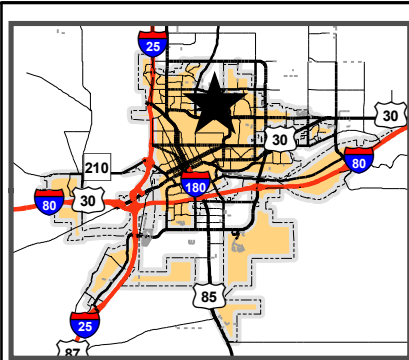

If the Commission acts contrary to staff's recommendation or recommends conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for their recommendation.

STAFF RECOMMENDATION:

Staff recommends approval of the assigned zoning for land west of Converse Ave and north of East Carlson St to NR-3 Neighborhood Residential – High Density as shown in the attached zone change map, noting that the project meets the review criteria for approval.
