

MEMORANDUM

To: Governing Body, City of Cheyenne

FROM: Renee Smith, Economic Resource Administrator

DATE: November 4, 2025

SUBJECT: Resolution to support a Land and Water Conservation Fund grant application to complete the primary pathway at the Cheyenne Botanic Gardens in Lions Park

SUMMARY:

Cheyenne Recreation and Events Department plans to submit a grant application to reconfigure and construct the Cheyenne Botanic Garden's Primary Pathway to allow each garden element to be experienced through a loop circulation system that will utilize existing paths wherever possible. This project prioritizes the new circulation system, irrigation main lines, and border/edge establishment which will provide the framework for remaining implementation identified in the June 2024 Cheyenne Botanic Gardens Master Plan. The project will include the removal of existing concrete, earthwork, grading, landscape and irrigation adjustments, electrical improvements, and new concrete pavement. The primary path improves accessibility and ensures vehicle capacity and access for maintenance and emergency vehicles.

The anticipated project budget is \$765,630. We are requesting \$382,815 in LWCF funds.

Contact Renee Smith at rsmith@cheyennecity.org or 307-637-6285 for more information.

RESOLUTION NO. _____

ENTITLED: "A RESOLUTION SUPPORTING THE CITY OF CHEYENNE'S APPLICATION FOR A LAND AND WATER CONSERVATION FUND GRANT TO COMPLETE THE PRIMARY PATHWAY AT THE CHEYENNE BOTANIC GARDENS IN LIONS PARK."

WHEREAS, the Governing Body supports the Cheyenne Botanic Gardens' mission to cultivate community by providing publicly accessible and treasured gardens, educational opportunities, and enrichment;

WHEREAS, the Cheyenne Botanic Gardens' Master Plan, completed in February 2024, was developed through a robust public engagement process and identified the need for a new circulation system, irrigation main lines, and border establishment for the Primary Pathway network;

WHEREAS, the Land and Water Conservation Fund, administered by the Wyoming Department of State Parks and Cultural Resources, is a federal grant program designed to assist in the development or acquisition of outdoor recreation lands and facilities for public use;

WHEREAS, the City intends to apply for a Land and Water Conservation Fund grant to reconfigure and construct the Primary Pathway at the Cheyenne Botanic Gardens in a manner consistent with the Master Plan and in compliance with applicable federal and state grant requirements;

WHEREAS, the City of Cheyenne will encumber 100% of the grant request totaling seven hundred sixty-five thousand six hundred thirty dollars (\$765,630.00), which includes both federal funds requested and the required 50% local match;

WHEREAS, the required local match, totaling three hundred eighty-two thousand eight hundred fifteen dollars (\$382,815.00), shall be provided from the City of Cheyenne's 2021 Special Purpose Option Tax Grant Match funds; and

WHEREAS, the City of Cheyenne affirms that Lions Park shall continue to be dedicated and be used for outdoor recreation purposes in perpetuity, in accordance with Land and Water Conservation Fund requirements.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, that it hereby supports the submission of a Land and Water Conservation Fund grant application for the improvements to the Primary Pathway at the Cheyenne Botanic Gardens;

BE IT FURTHER RESOLVED, that the Mayor, or such other City official as may be designated by the Mayor, is authorized to sign and submit the application and all supporting documents required for a Land and Water Conservation Fund grant; and

BE IT FINALLY RESOLVED, that the Mayor is further authorized to execute, on behalf of the City of Cheyenne, any grant agreements, assurances or related documents necessary to accept and administer the grant funds in the event such funds are awarded to the City for this project.

PRESENTED, READ AND ADOPTED THIS _____ DAY OF _____, 2025.

Patrick Collins, Mayor

(SEAL)

CIRCULATION FRAMEWORK

Circulation Framework

The diagram above illustrates a modified circulation strategy utilizing existing paths wherever possible and linking the overall garden together to create a loop throughout the garden in lieu of the current 'out-and-back' circulation network. Small wayfinding plazas are shown at key points of decision that provide seating and a place for pause. Primary pathways are used to connect individual gardens and allow for edges between gardens to be clarified and delineated.

Primary paths should be constructed at a minimum of 8' in width to allow for bi-directional use as well as maintenance vehicles such as pick-up trucks or other snow plow equipment. Secondary paths within garden interiors should be a minimum of 4-5' in width.

PEDESTRIAN SURFACES

- EXISTING PATHS TO REMAIN
- PAVERS
- COLORLED CONCRETE
- CRUSHER FINES
- REFLEXOLOGY
- BOARDWALK/BRIDGE
- EXISTING GREENWAY

Pedestrian Surfaces

This diagram illustrates materials proposed for each walkable surface within the garden. The primary path ensures vehicle capacity and access for maintenance and emergency services

IRRIGATION LAYOUT PLAN
