MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council
From: Connor White
Subject: PUDC-25-244 Scenic Development, 7th Filing – Expedited Plat
Date: December 8, 2025

Background:

The item for consideration is a Final Plat. This is approved by Resolution.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral 12/8/2025
- Public Services Committee 12/15/2025
- Final Consideration 12/22/2025

Planning Commission Recommendation:

The Planning Commission heard this item at their December 1, 2025 meeting and recommended the Governing Body approve this application with staff recommended exception, acknowledgement and conditions with an amendment to condition 3.a.

Staff recommended exception, acknowledgement and conditions with Planning Commissions amendment to condition 3.a:

1. Exception:
 - a. Exception to block size.
2. Acknowledgement:
 - a. Provide BOPU easements over any facilities requiring them, to the satisfaction of the BOPU through the administrative plat process.
3. Conditions:
 - a. Prior to signing the plat, a note be added to the face of the plat stating, "Due to these parcels being considered "Oversized Parcels" for the purpose of block size, internal and external pedestrian access easements to be provided with future development extending to the north, south, east, and west boundaries of the proposed development."
 - b. Technical corrections be made prior to recording.

The Planning Commission Staff report is attached and has not been changed.

Public Comment

As of the creation of this memo (December 3, 2025), Staff has received no inquires or comments from the public on this project. The project page on the website has received 98 views and no comments.

RESOLUTION NO. _____

ENTITLED: "A RESOLUTION AUTHORIZING THE MAYOR AND THE CITY CLERK TO SIGN A FINAL PLAT FOR SCENIC DEVELOPMENT, 7TH FILING, CITY OF CHEYENNE, LARAMIE COUNTY, WYOMING (LOCATED SOUTH OF STOREY BOULEVARD, WEST OF CONVERSE AVENUE, AND NORTH OF EAST CARLSON STREET)."

WHEREAS, Section 20 LLC has subdivided certain land located south of Storey Boulevard, west of Converse Avenue, and north of East Carlson Street in accordance with the statutes in such cases made and provided;

WHEREAS, Section 20 LLC, the owners of the above-described land, has caused a subdivision plat of said land to be prepared, acknowledged, and certified, particularly describing the lots, blocks, easements and rights-of-way contained therein; and

WHEREAS, the above-described subdivision plat has been presented to the City of Cheyenne Planning Commission for consideration, the Planning Commission has recommended approval of said plat to the Governing Body, and the plat has been duly executed by the Development Office.

NOW, THEREFORE BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, that the subdivision described as Scenic Development, 7th Filing, Cheyenne, Wyoming, be and the same is hereby approved and confirmed as presented, and that the Mayor and the City Clerk are hereby authorized, empowered, and directed to execute the final plat.

PRESENTED, READ AND ADOPTED THIS _____ DAY OF _____, 2025.

Patrick Collins, Mayor

CITY OF
CHEYENNE
— PLANNING & DEVELOPMENT —

CITY OF CHEYENNE PLANNING COMMISSION
DECEMBER 1, 2025
STAFF REPORT

FILE: PUDC-25-244: Scenic Development, 7th Filing (Expedited Review)

REQUEST: Plat roughly 22.21 acres into 3 Lots.

LOCATION: South of Storey Blvd., west of Converse Avenue, north of East Carlson St.

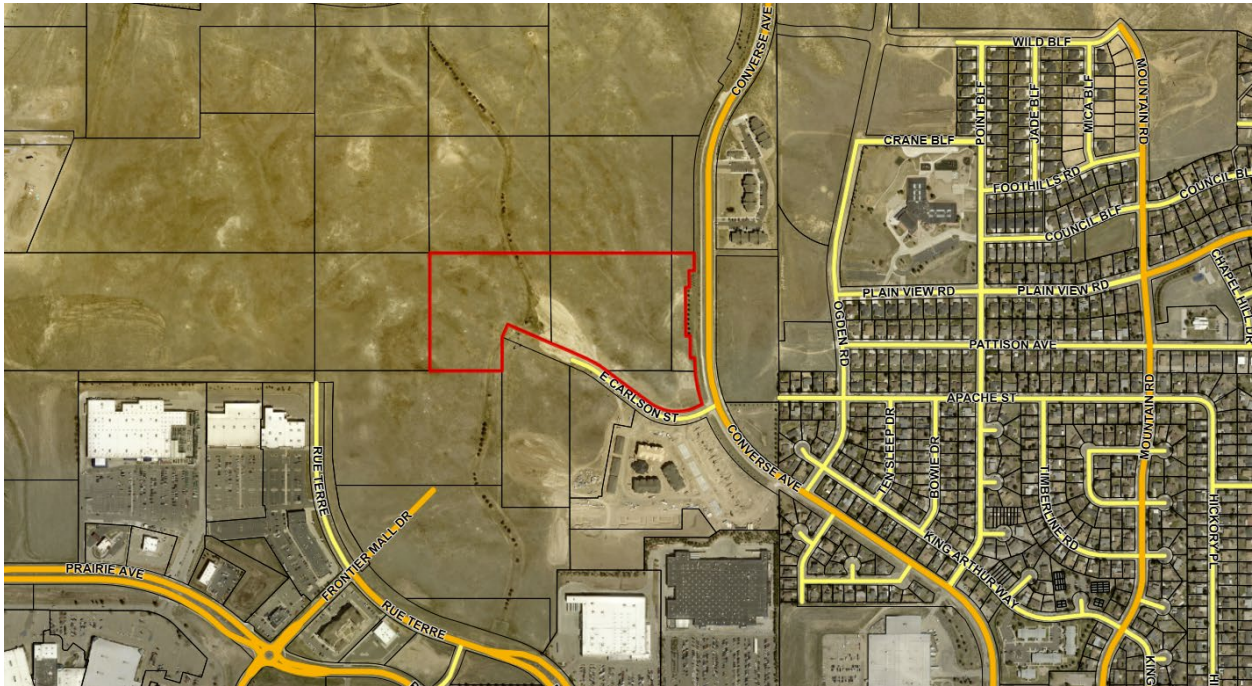

APPLICANT: Kelly Hafner

OWNER: Section 20 LLC

ZONING: Proposed zoning is NR-3 at the time of this report. Currently County LU with an assigned zoning of AG upon annexation.

PURPOSE: A plat creating three Lots, two for multi-family development and one remainder lot.

PREPARED BY: Connor White, Planner II

RECOMMENDED MOTION:

Move to **approve** the Scenic Development, 7th Filing Preliminary Plat, advancing the Final Plat to the Governing Body with staff recommended exception, acknowledgement and conditions.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.1.2 Preliminary Plat Approval
- UDC 2.1.3 Final Plat Approval
- UDC Article 4 Subdivisions
- UDC Article 5 Zoning Regulations
- PlanCheyenne

BACKGROUND:

The applicant is requesting approval of a preliminary plat for roughly 22.21 acres of land. The proposed plat would create two Lots for multi-family development and one remainder Lot for future development. Lots 2 and 3 are currently proposed to be NR-3 – Neighborhood Residential High-density and the remainder Lot would be AG – Agricultural.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning	Land Use
Subject Site	Urban Residential / Mixed-use Commercial	County LU – Land Use (anticipated to be assigned City AG Agriculture upon annexation)/ City CB – Community Business (proposed zone change to NR-3)	Vacant
North	Urban Residential	County LU – Land Use	Vacant
South	Mixed-use Commercial	NR-3 – Neighborhood Residential High-density	Multi-family Development
East	Mixed-use Residential	County LU	Vacant
West	Urban Residential	County LU	Vacant

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Preliminary Plat, the Commission must make the following findings required in UDC 2.1.2.d – a detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.1.2.d.1)

On the future land use map found in PlanCheyenne, the subject land has been designated as Mixed-use Commercial / Urban Residential. The Mixed-Use Commercial Emphasis category encompasses existing and future developments, many of which align with activity centers. This category includes a wide variety of land uses and activities, focused primarily on commercial

activities, but also includes other employment, public, and residential uses. The Urban Residential designation encourages a range of more intensive residential uses, although the intent is not to change existing stable neighborhoods.

Foundation 1 of PlanCheyenne encourages community growth. This development is in response to market demands and is within the Urban Service Boundary. The development patterns proposed by this plat are compatible with the designations found on the future land use map.

PlanCheyenne encourages connecting neighborhoods with streets and sidewalks for the purposes of making walking and bicycling safe and convenient. Although the block provided is oversized, the plat proposes a pedestrian easement which would help connect neighborhoods in a way that is safe and convenient for pedestrians and cyclists (even if cars would have to go around the block).

The application **complies** with this review criterion.

2) The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities. (UDC 2.1.2.d.2)

The proposed lot is to allow for multifamily development similar to the development to the south. All multifamily buildings will be under one ownership. The plat also extends E Carlson to the remainder lot which will allow it to continue further west or connect into a new road in the future.

Future development to the north or northwest may be limited by this plat's lack of platted roadways. The plat does include a pedestrian easement to break up the larger block this plat would create, though such a connection would not necessarily allow vehicle connections. This particular developer has created integrated developments with properties they own, so internal circulation may be possible if they are the ones to develop north of this property. Additional access easements can also be provided as the development builds out.

The application **complies** with this review criterion, with conditions/exception.

3) The division of land meets the purposes, intent, and all applicable standards in Article 4. (UDC 2.1.2.d.3)

Community Facility Fees (4.2):

For fees based on acreage, the area of the plat is pro-rated to the nearest tenth of an acre. Lands reserved as unbuildable (for right-of-way, detention, parks, remainder lots, etc), are exempt from fees. Park fees are calculated at \$700 per acre. All fees are due at the time of building permit.

Per UDC Section 4.2.5, Table 4-2, Enhancement Fees are payable at the issuance of a building permit for each structure. The Park Enhancement Fee for residential is \$400 per dwelling unit.

Transportation Network (4.3):

This plat is adding a small amount to an existing E Carlson right-of-way to allow further dedication in the future. No additional new streets are proposed with this plat.

Proposed blocks do not meet the block size requirements of the UDC. The proposed block is excessively sized compared to regulations for the area. Although there is room for streets around this development, the 'disconnected' block size is only allowed to be 60% of the maximum block size, and the 'disconnected' block created by this development is much larger than 60% of the maximum block perimeter required in "Urban Residential" areas. The applicant is proposing a pedestrian access easement between proposed Lots 2 and 3 which does mitigate some of the negative impacts of the oversize block. Additionally, the way that the applicant develops their sites does create internal access ways that connect their developments and could allow for future connections to other developments in the future. Should the Planning Commission and the Governing Body wish to approve this plat, an exception to block size is required. Staff proposes granting the "Oversized Parcel" exception as it allows for internal access connections for larger scale developments, such as multifamily.

Open Space (4.4):

Open space is required at 750sqft per unit or 8% of the gross development area, whichever is less. Due to the nature of the proposed development pattern, open space will be taken care of with future development actions.

Required Improvements (4.5):

This plat appears to be able to provide all required utilities to the lot within this development. Easements are not provided for BOPU utilities, these easements need to be provided to the satisfaction of the BOPU. An Administrative Plat will need to be provided at a later date providing all the required BOPU easements. Easements are provided to other utilities.

Public Safety Fees (4.6):

Public Safety Fees are required at the time of construction of any residential building on the proposed lot. Per UDC Section 4.6.3.b, Public Safety Fees are payable at the issuance of a building permit for each structure.

The application **complies** with this review criterion, with conditions.

4) Any phasing proposed in the application is clearly indicated and demonstrates a logical and well-planned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned. (UDC 2.1.2.d.4)

The plat proposes two buildable lots with a remainder lot. The remainder lot is not intended to be developed at this time and is the furthest point from the currently developed areas. The remainder lot is essentially a 'future phase' of development. However, there is no indication the area in the remainder lot would develop with the same development pattern as the buildable lots, so it is not truly a phase of this development. No specific phasing is proposed with the buildable lots in this project.

The application **complies** with this review criterion..

- 5) The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts. (UDC 2.1.2.d.5)**

Drainage:

A drainage worksheet was submitted and reviewed. There were no concerns with drainage at the plat level for the project as presented.

Traffic:

A transportation worksheet was submitted and reviewed. There were no concerns with traffic at the plat level for the project as presented.

The application **complies** with this review criterion.

- 6) Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements. (UDC 2.1.2.d.6)**

The proposed application occurs in concert with a proposal to zone the land NR-3 Neighborhood Residential – High Density. The NR-3 zone is intended primarily for high-density, urban residential uses with consistent neighborhood character. The NR-3 zone allows multifamily development as a use by right. The proposed lot type would be MD1.

The intent of the NR3 zone is to develop with a compact neighborhood development patterns and a context of “a highly connected street network with street design types that have a high degree of pedestrian amenities” is encouraged. The block proposed by this plat is oversized, but a connecting pedestrian amenity is proposed.

The application **complies** with this review criterion, with conditions.

- 7) All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance. (UDC 2.1.2.d.7)**

Lots 2 and 3 are proposed to be buildable Lots. Lot 1 is proposed as a remainder Lot which will need to be replatted in the future should that lot wish to be developed or sold.

The application **complies** with this review criterion.

- 8) The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property. (UDC 2.1.2.d.8)**

The street network in this area would generally require a street within this plat boundary, which would be dedicated with this plat. Additions to the street network would facilitate surrounding

development. Staffs understanding is that there are ongoing discussions with landowners to rearrange the street network in this area and no additional streets are proposed to be platted at this time. Streets could be platted as other lands surrounding this one are developed. This plat will not otherwise create any undue influence on existing or potential development.

The application **complies** with this review criterion, with conditions.

9) The application is not harmful to the public health, safety, and welfare. (UDC 2.1.2.d.9)

An interconnected street system with smaller blocks reduces travel times and pressure on major roadways. UDC standards would expect a street through this plat area to reduce block sizes. The plat does propose a pedestrian easement, which would reduce some of the travel time issues for pedestrian and bicycle transportation. Staff is uncertain in how the development will be built at this time, so future easements could be provided at a later time.

City staff is satisfied that this proposed plat would not otherwise adversely affect the public health, safety, or general welfare.

The application **complies** with this review criterion, with conditions.

10) Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description. (UDC 2.1.2.d.10)

Lot 1 is proposed to be a remainder lot and is labeled as such on the plat.

The application **complies** with this review criterion.

11) The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan. (UDC 2.1.3.d.1)

The Final Plat submitted with the application is substantially similar to the Preliminary Plat submitted.

The application **complies** with this review criterion.

12) The application meets any conditions or modifications of the approved preliminary plat. (UDC 2.1.3.d.2)

Through the review process and application of the Preliminary Plat, Staff recommends minor corrections as conditions to the plat. These corrections should be resolved prior to the final plat being recorded. In order for the plat to be approved, an exception to block size would also need

to be granted. Staff proposes granting the "Oversized Parcel" exception as it allows for internal access connections for larger scale developments, such as multifamily.

The application **complies** with this review criterion, with conditions.

13) The application meets the purposes, intent, and applicable standards of Article 4. (UDC 2.1.3.d.3)

As a concurrent Preliminary and Final Plat application, this Final Plat review criterion is covered by the equivalent Preliminary Plat review criterion (subsection 3 above).

The application **complies** with this review criterion.

CONFORMANCE WITH APPLICABLE PLANS:

The project is located in an area covered by the following plans:

- PlanCheyenne

Conformance with PlanCheyenne is covered by review criterion 1.

PUBLIC NOTICE AND PUBLIC COMMENTS RECEIVED:

Although projects have public notice and the opportunity for public comments, projects are required to be approved or denied based on the review criteria (listed above). Public comments relevant to the review criteria may assist the review and discussion on the application.

The public was given notice of the project in the following ways:

- **Legal Notice** in the Wyoming Tribune Eagle published on November 15, 2025
- **Posted Notice** Evidence of posted notice was provided showing that the signs were posted on November 5, 2025.
- **Internet Posting** on connect.cheyennecity.org on November 6, 2025

As of the publication of the Staff Report (November 24, 2025), Staff has received no inquiries or comments from the public on this project. The project page on the website has received 77 views and no comments.

STAFF REVIEW:

Through the review process, comments were received regarding the following issues:

1. Technical correction
2. Utility and easement correction.
3. Block size

CONCLUSION:

Staff analysis is that the application meets the review criteria and therefore recommends approval of the expedited plat application with an exception, acknowledgement and conditions.

ALTERNATIVES:

1. Recommend approval of the expedited preliminary plat, forwarding the Final Plat to the Governing Body.
2. Recommend approval of the preliminary plat with conditions and that a final plat addressing the conditions of approval be prepared and presented to the Governing Body.
3. Recommend approval of the preliminary plat as submitted by the applicant and forward the preliminary plat to the Governing Body.
4. Recommend approval of the preliminary plat subject to staff's recommended conditions and forward the preliminary plat to the Governing Body.
5. Recommend denial of the preliminary plat based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
6. Postpone the project until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

The Planning Commission may modify staff's recommended conditions, delete conditions, add conditions, or decide contrary to staff's recommendation. In the event conditions are modified, the conditions shall relate to applicable review criteria. In the event that the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

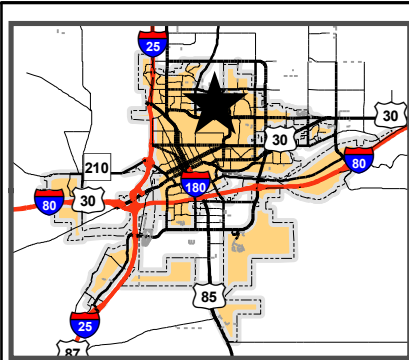

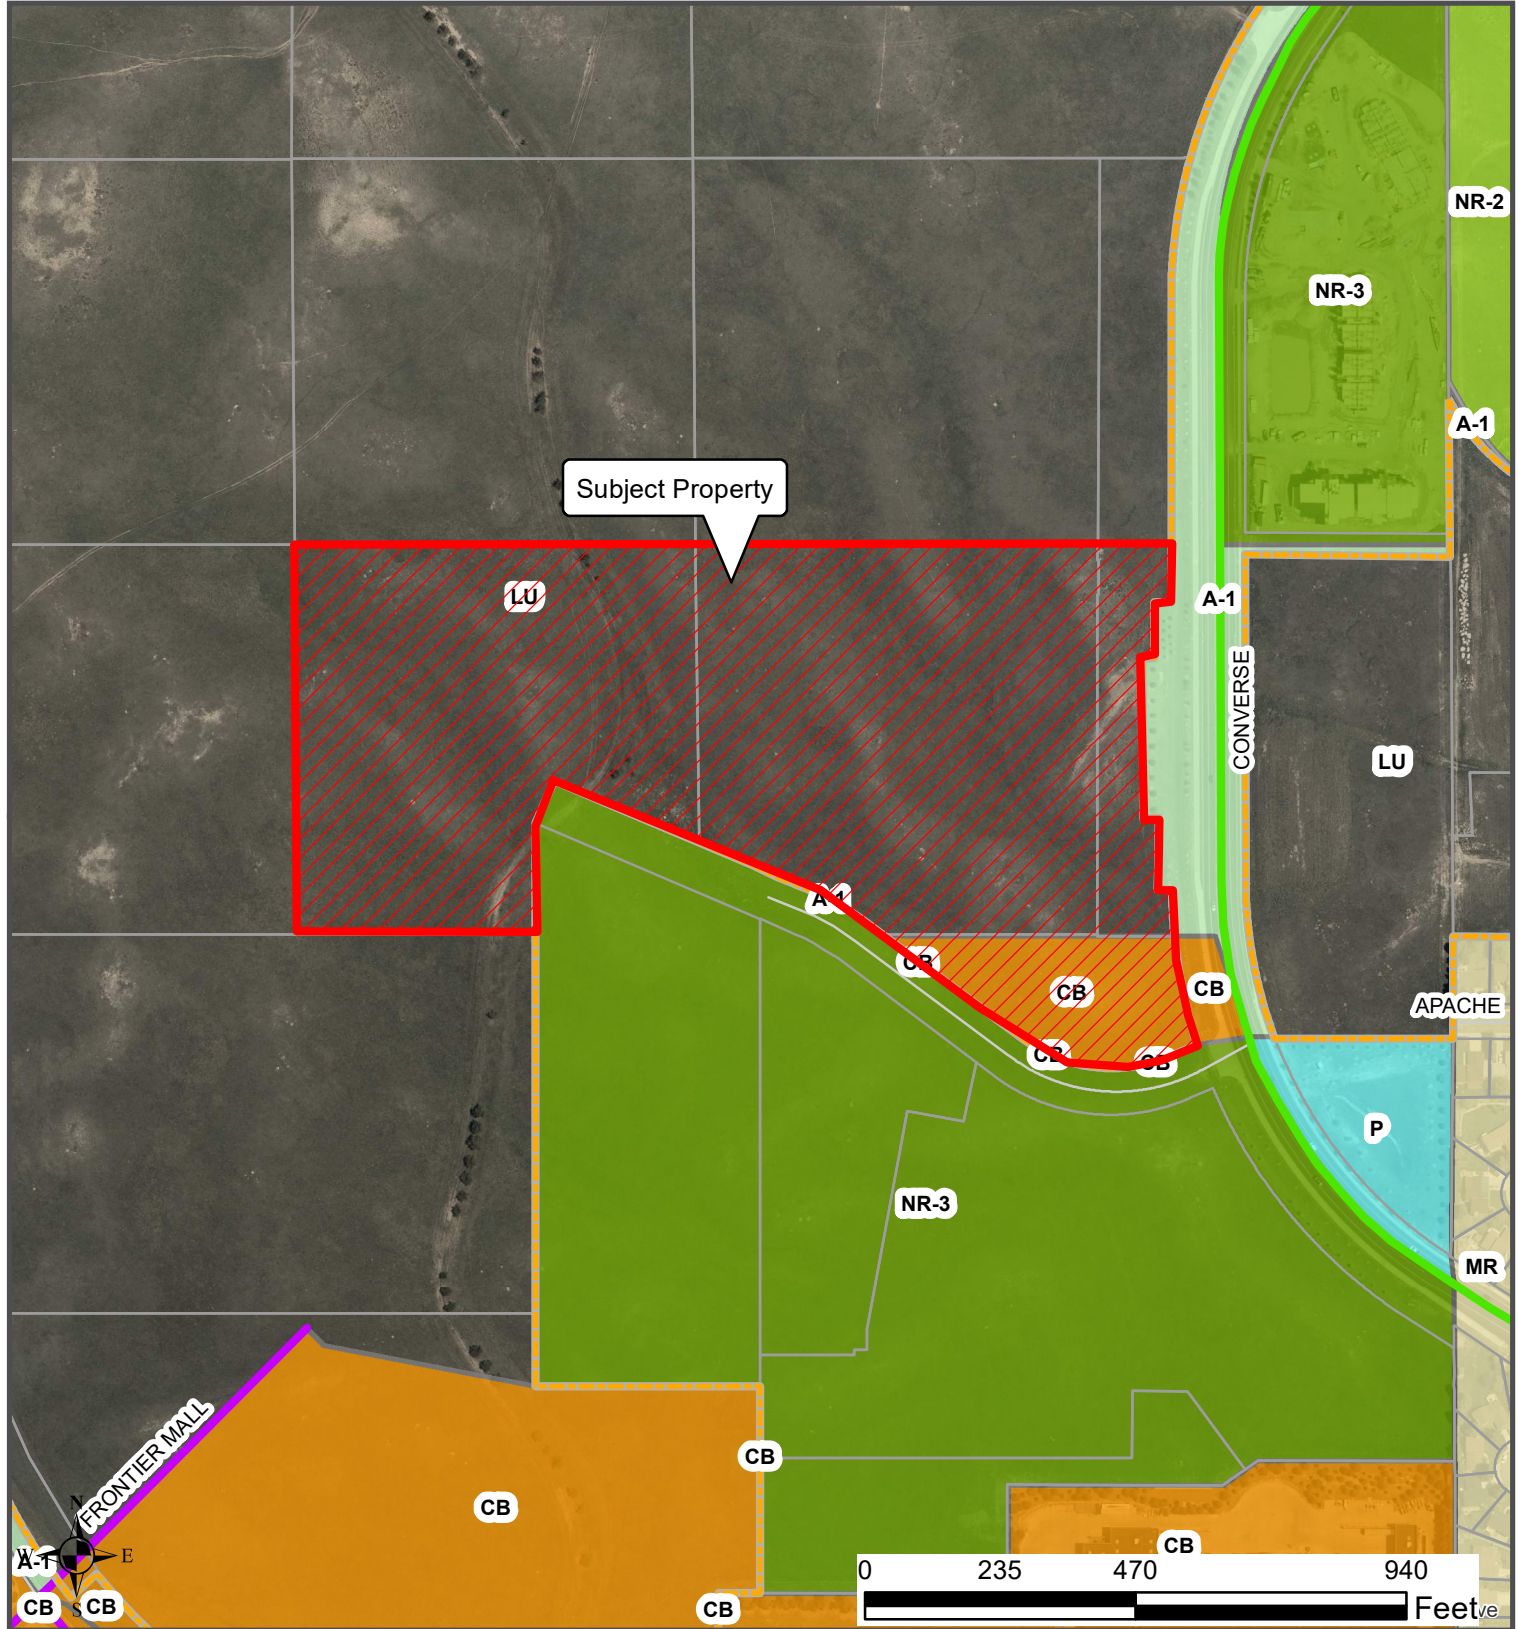

STAFF RECOMMENDATION:

Staff recommends approval of the Preliminary Plat, advancing the Final Plat to the Governing Body with the following exception, acknowledgement and conditions:

1. Exception:
 - a. Exception to block size.
2. Acknowledgement:
 - a. Provide BOPU easements over any facilities requiring them, to the satisfaction of the BOPU through the administrative plat process.
3. Conditions:
 - a. Prior to signing the plat, a note be added to the face of the plat stating, "Due to these parcels being considered "Oversized Parcels" for the purpose of block size, internal access easements to be provided with future development".
 - b. Technical corrections be made prior to recording.

Application Information

This application has a deadline. The deadline is the second Wednesday of the month.
Application Schedule.

An expedited review is when both a preliminary and final plat are submitted to the Planning Commission together. To be eligible for expedited review the preliminary plat shall contain no significant planning, design, and engineering issues. Upon determination by staff, the applicant may submit a preliminary and final plat to the Planning Commission.*

I acknowledge the that Expedited status is not guaranteed.*

Written Statement* ?

The existing site is unplatted and this plat covers the concurrent annexation and zone change areas with Scenic Development 7th Filing.

Pre-application Meeting Date

08/06/2025

Park Fees are due at time of signing of the final plat mylar (see UDC 4.2.5). I acknowledge that this plat may be required to pay plat-level Park Fees.*

Public Improvements are required with platting actions. Please select the option that best demonstrates your intent for the public streets and other infrastructure adjacent to or within the plat boundary.* 

Owner(s) (or developers) behind the plat application will construct the needed infrastructure.

Review Criteria

The following review criteria are found in the UDC regarding a Preliminary Plat. Please acknowledge the proposed plat meets each review criterion by checking the box.

The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan (2.1.2.d.1).*

The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities (2.1.2.d.2).*

The division of land meets the purposes, intent, and all applicable standards in Article 4 (2.1.2.d.3).*

Any phasing proposed in the application is clearly indicated and demonstrates a logical and wellplanned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned (2.1.2.d.4).*

The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts (2.1.2.d.5).*

Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in site design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements (2.1.2.d.6).*

All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance (2.1.2.d.7).*

The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property (2.1.2.d.8).*

The application is not harmful to the public health, safety, and welfare (2.1.2.d.9).*

Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description (2.1.2.d.10).*

The following review criteria are found in the UDC regarding a Final Plat. Please acknowledge the proposed plat meets each review criterion by checking the box.

The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan (2.1.3.d.1).*

The application meets any conditions or modifications of the approved preliminary plat (2.1.3.d.2). (Not applicable at time of application for an expedited plat)

The application meets the purposes, intent, and applicable standards of Article 4 (2.1.3.d.3).*

Certification

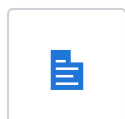

I hereby certify that I am the owner, applicant, or agent named herein and that I have familiarized myself with the rules and regulations with respect to the filing of this application and that the foregoing statements and answers contained on this application and accompanying documents are true and accurate to the best of my knowledge.*

- FOUND 1½" ALUMINUM CAP
- FOUND 2" ALUMINUM CAP
- ⊗ FOUND 5/8" IRON REBAR
- FOUND BRASS CAP
- FOUND PLASTIC CAP
- ⊗ SET ¾" X 24" LONG REBAR WITH 2½" ALUMINUM CAP STAMPED "SSS P.L.S. 5910"

NOTES

BASIS OF BEARINGS:
CITY OF CHEYENNE CONTROL NETWORK, CP RIDGE AND EAST. STATE PLANE
VALUES SHOWN AS "SP"

ALL UNMONUMENTED LOT CORNERS, ANGLE POINTS, AND POINTS OF CURVATURE TO BE MONUMENTED WITH 1½" ALUMINUM CAP STAMPED "SSS P.L.S. 5910" ON ¾"x24" REBAR.

NO PORTION OF THE LANDS CONTAINED WITHIN THIS RE- PLAT BOUNDARY FALL WITHIN A 500-YEAR FEMA SFHA PER F.I.R.M. PANEL No. 56021C1091F, DATED JANUARY 17, 2007.

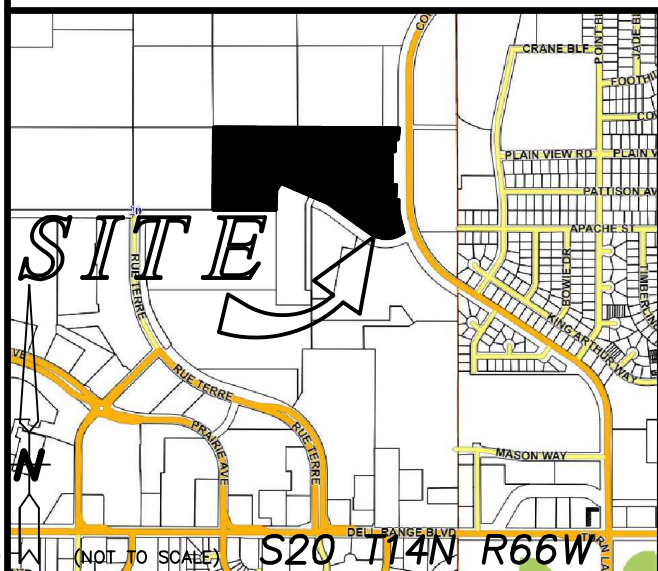

BOUNDARY DATA IS BOTH MEASURED AND RECORD.

Preliminary Plat Phasing Notes: The project is intended to develop in phases TBD by future site plans for Lots 2 and 3. Lot 1 is a remainder lot.

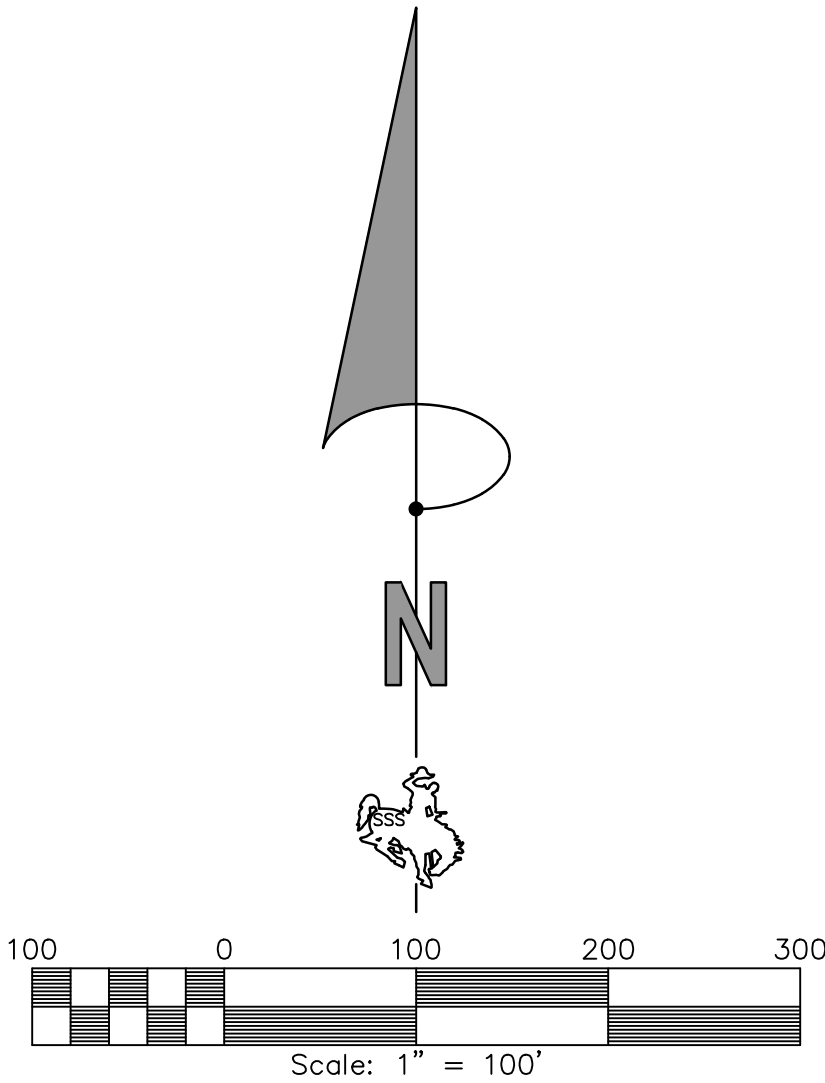

Pedestrian Access Notes: The intent of the plat is to provide pedestrian access meeting through Lot 2. The final location and placement of pedestrian access (both pathway and easement) is subject to change pending future site plan and related development applications.

Easements for BOPU and other public utilities to be determined with future site plans and provided with future development applications.
