MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council
From: Connor White
Subject: PUDC-26-29/30 / Cheyenne Business Park and Campstool Business Park – Zoning Map Amendment
Date: May 11, 2026

Background:

The item for consideration is a Zoning Map Amendment (zone change). This is approved by Ordinance.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral May 11, 2026
- Public Services Committee May 18, 2026
- Second reading May 26, 2026
- Public Services Committee June 1, 2026
- Third and final reading June 8, 2026

Planning Commission Recommendation:

The Planning Commission heard this item at their May 4, 2026, meeting and recommended the Governing Body approve this application with the following modifications:

1. *Removal of Lots 1 and 2, Block 1, Campstool RV Addition*
2. *Removal of Lots 3 and 4, Block 3, Campstool Addition, 4th Filing*

The Planning Commission Staff report is attached and unchanged.

The reason for the removal of several lots was due to the owner of them requesting not to be a part of the zoning map amendment.

Public Comment

As of the creation of this memo (May 6, 2025), Staff has received multiple inquiries from various property owners within the area to be rezoned. Many of their questions are about the difference in the zone districts and what it means for their property. The project page on the website has received 75 views and no comments.

RE: Public Notice: Zoning Map Amendment

Dear Mr. White:

RV Retailer Wyoming Real Estate LLC, an affiliate of Blue Compass RV ("RV"), owns property located at 9310 Hutchins Drive, in the City of Cheyenne (the "City"), which consists of four (4) parcels as follows:

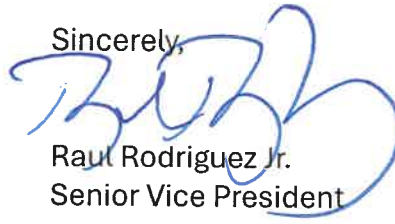

PIDN: 14653220100200	PIDN: 14653110800400
PIDN: 14653110800200	PIDN: 14653110800300

The parcels are collectively, the "Property".

RV received your letter dated April 16, 2026, regarding a proposed Zoning Map Amendment (Zone Change) (the "Rezoning") that may adversely affect the Property's current uses and devalue the Property. RV respectfully requests that its Property **not** be included in the Rezoning, and that its Property's current zoning of Heavy Industrial (HI) be retained. The location of the Property along I-80 easily provides a "carve-out" of the Property from the proposed Rezoning.

Please contact me at your earliest convenience at 954-295-6687 to discuss RV's request to opt out of the Rezoning. Unfortunately, your April 16, 2026 was the first notice we received regarding the proposed Rezoning, so we want to make sure we have enough time for our request to be reviewed and approved. Thank you for your attention to this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Raul Rodriguez Jr.", is written over the typed name and title.

Raul Rodriguez Jr.

CITY OF CHEYENNE PLANNING COMMISSION
MAY 4, 2026
STAFF REPORT

FILE: **PUDC-26-29 / 30: Cheyenne Business Park and Campstool Business Park – Zoning Map Amendment (zone change)**

REQUEST: A City Initiated rezone of Cheyenne Business Park and Campstool Business Park from HI – Heavy Industrial, LI – Light Industrial, and CB Community Business to BP Business Park.

LOCATION: East Cheyenne adjacent to I-80.

APPLICANT: City of Cheyenne

OWNER: Multiple

ZONING: HI – Heavy Industrial, LI – Light Industrial, CB – Community Business

FUTURE LAND USE: Industrial, Mixed Use Employment and Public

PURPOSE: To zone two parcels BP for development.

PREPARED BY: Connor White, Planner II

RECOMMENDED MOTION:

Move to recommend the Governing Body **approve** the rezoning of Cheyenne Business Park and Campstool Business Park to BP Business Park as shown in the attached zone change map, noting that the project meets the review criteria for approval.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.2.1 Zoning Map Amendment
- UDC Article 5
- PlanCheyenne

BACKGROUND:

This City Initiated zone change application proposes changing the zoning from LI Light Industrial, HI Heavy Industrial, and CB Community Business to BP Business Park for roughly 1,652.6 acres of land. The area proposed to be rezoned is part of the Cheyenne Business Park and Campstool Business Park.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning District	Land Use
Subject Site	Industrial, Mixed-use Employment, Public	HI – Heavy Industrial, LI – Light Industrial, CB – Community Business	Commercial / Industrial
North	Mixed-use Employment	MR – Medium-density Residential, County P – Public, County CB – Community Business, County PUD – Planned Unit Development, County LU – Land Use.	Single-family, Commercial, City Park, Rural Residential, Resource Extraction
South	Agricultural / Rural	County LU – Land Use, AG – Agricultural, County P – Public, HI – Heavy Industrial, CB – Community Business	Vacant / Industrial, Agricultural, Commercial
East	Industrial	County LI – Light Industrial, County PUD – Planned Unit Development, County LU – Land Use	Vacant, Industrial, Commercial, Civic
West	Agricultural / Rural	County LI – Light Industrial, County HI – Heavy Industrial, HI – Heavy Industrial, PUD – Planned Unit Development, CB – Community Business	Single-family Residential and Industrial

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Zoning Map Amendment, the Commission must make the following findings required in UDC 2.2.1.d. A detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.2.1.d.1)

PlanCheyenne encourages opportunities for a range of industrial employment uses as well as encourages working with community partners such as LEADS. LEADS oversees the Cheyenne Business Park.

The Future Land Use Designation for this area is Industrial and Mixed-use Employment. According to the comprehensive plan the optimal City zones for the subject areas future land use designation is any of our industrial or commercial zones (for the areas designated mixed use employment). The BP zone is a mix of both our industrial and commercial uses and would be suited for this area of the community.

Based on the policies and future land use map, BP zoning is appropriate at this location.

The proposed zone change **complies** with review criterion 1.

2) The application is compatible with nearby property, specifically considering existing zoning, the Comprehensive Plan, and any other official plans and policies created under the guidance of that plan for these areas; (UDC 2.2.1.d.2)

Much of the area is zoned LI, HI or CB. The BP zone is intended to be a combination of these three zones. The area is also developed with industrial and commercial type uses and would continue to develop with these types of uses based on the comprehensive plan. Nearby properties are zoned HI, LI (in the County), and CB. These areas are compatible with BP zoning and the BP may even extend to these areas in the future.

The County PUD zone to the east is a large-scale civic area distant from the business park, but the BP zone would be compatible with the anticipated development patterns of this property. The County PUD is developed with a more industrial-style development which is compatible with BP zoning.

Large-acreage parcels surrounding the development to the south include AG zoning in the City and LU and P zoning in the county. These parcels would not be adversely affected by the proposed BP zone.

Properties to the north include MR zoning and County LU zoning developed with largely residential land uses. However, these parcels are across the railroad from the proposed zone change and are currently adjacent to land zoned HI. These parcels would not be adversely affected by the proposed BP zone.

There is a City PUD developed with residential uses to the southwest of the proposed zone change, but the neighborhood is currently surrounded by HI zoning on one of 3 sides and LI zoning on the other 2 sides. These parcels would not be adversely affected by the proposed BP zone.

The proposed zone change for the subject property **complies** with review criterion 2.

3) The suitability of the subject property for development according to the standards and uses of the existing zoning district, compared to the suitability of the subject property for development according to the standards and uses of the proposed zoning district (UDC 2.2.1.d.3)

The BP zone is a combination of the LI, HI and CB zones which will allow this area to develop with mixes of industrial and commercial without the need to do additional zone changes. Over the years there have been several parcels that had switched from LI to CB back to LI or vice versa. The BP zone also allows more flexibility when it comes to landscaping and property coverage.

The proposed zone change **complies** with review criterion 3.

4) The ability of the subject property and surrounding vicinity to be developed according to the Subdivision Standards in Article 4 considering the proposed zoning (UDC 2.2.1.d.4)

No changes to the street network are proposed. Accesses will not be changed with the zone change. Infrastructure (streets and utilities) exist in the area. Generally speaking, business parks are not anticipated to conform to block sizes, where generally CB zoned areas would be. Changing areas from CB to BP would still allow for commercial uses while recognizing the difficulty of creating traditional urban blocks in this area of the community.

The proposed zone change for the subject property **complies** with review criterion 4.

5) The ability of the application to support the Intent and Applicability statements of the proposed zoning district and achieve the Design Objectives of any specific standards. (UDC 2.2.1.d.5)

The Business Park (BP) district is intended to support small and large-scale industrial development while providing essential commercial services along regional transportation routes in an industrial park setting. The district integrates manufacturing, processing, research and development, and shipping activities in addition to retail, dining, and convenience stores to enhance functionality and appeal for businesses and employees.

The BP district is applicable to areas on the edge of the community that are intended to support large-scale industrial, manufacturing, shipping, research and development, and data center uses. The district is typically found close to major transportation routes, making commercial uses appropriate. The district shall contain not less than 320 acres of land (interrupted only by roads, railroads, highways and natural features (such as ridges and waterways). Specifically, large-scale areas within the future land use designations in the comprehensive plan of Community Business, Mixed-Use Employment, and Industrial – including Community/Regional Activity Centers. Areas

currently designated Agricultural/Rural (either inside or outside of the Urban Service Boundary) may also be appropriate for this zone district if near to regional transportation routes and if development of the area extends appropriate infrastructure.

The proposed zone change is to take two existing business parks along regional transportation routes and change them to the BP zone. The area proposed to be rezoned is over the required 320 acres.

The proposed zone change for the subject property **complies** with review criterion 5.

6) The ability of all potential future development to meet all applicable standards for development in the proposed zoning district, including other development options if any specific development proposed in association with the application is not executed after approval. (UDC 2.2.1.d.6)

The BP zone is a mix of the LI, HI and CB zone which allows for many different industrial and commercial uses. The BP zone will allow undeveloped properties in the area to develop without the need to change between the LI, HI or CB zone. The BP zone also provides flexibility in terms of landscaping and property coverage.

The proposed zone change **complies** with review criterion 6.

7) The review and recommendations of other reviewing bodies. (UDC 2.2.1.d.7)

No major comments were received in regard to the proposed zone change.

The proposed zone change for the subject property **complies** with review criterion 7.

8) Whether the application will harm the public health, safety, or general welfare. (UDC 2.2.1.d.8)

City staff is satisfied that this proposed zone change would not adversely affect the public health, safety, or general welfare.

The proposed zone change for the subject property **complies** with review criterion 8.

CONFORMANCE WITH APPLICABLE PLANS:

The project is located in an area covered by the following plans:

- PlanCheyenne

Conformance with PlanCheyenne is covered by review criterion 1.

PUBLIC NOTICE AND PUBLIC COMMENTS RECEIVED:

Although projects have public notice and the opportunity for public comments, projects are required to be approved or denied based on the review criteria (listed above). Public comments relevant to the review criteria may assist the review and discussion on the application.

The public was given notice of the project in the following ways:

- **Legal Notice** in the Wyoming Tribune Eagle published on April 18, 2026.
- **Posted Notice** Staff posted notice signs on April 27, 2026.
- **Internet Posting** on connect.cheyennecity.org on April 10, 2026.

As of the publication of the Staff Report (April 27, 2026), Staff has received 4 inquiries from property owners who have property within the area to be rezoned. These questions were about how this would affect their land. The project page on the website has received 3 views and no comments.

STAFF REVIEW:

Through the review process, review comments were received expressing the appropriateness of the BP zone at this location.

CONCLUSION:

Staff is satisfied that the application meets the review criteria set forth in UDC 2.2.1.(d). The BP zone is appropriate based on the future land use map, surrounding zoning, surrounding development patterns, and proposed development.

ALTERNATIVES:

1. Recommend approval of the zoning amendment as submitted by the applicant (**Staff Recommendation**).
2. Recommend approval of the zoning amendment subject to conditions or modifications.
3. Recommend denial of the zoning amendment based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
4. Postpone the zoning amendment until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

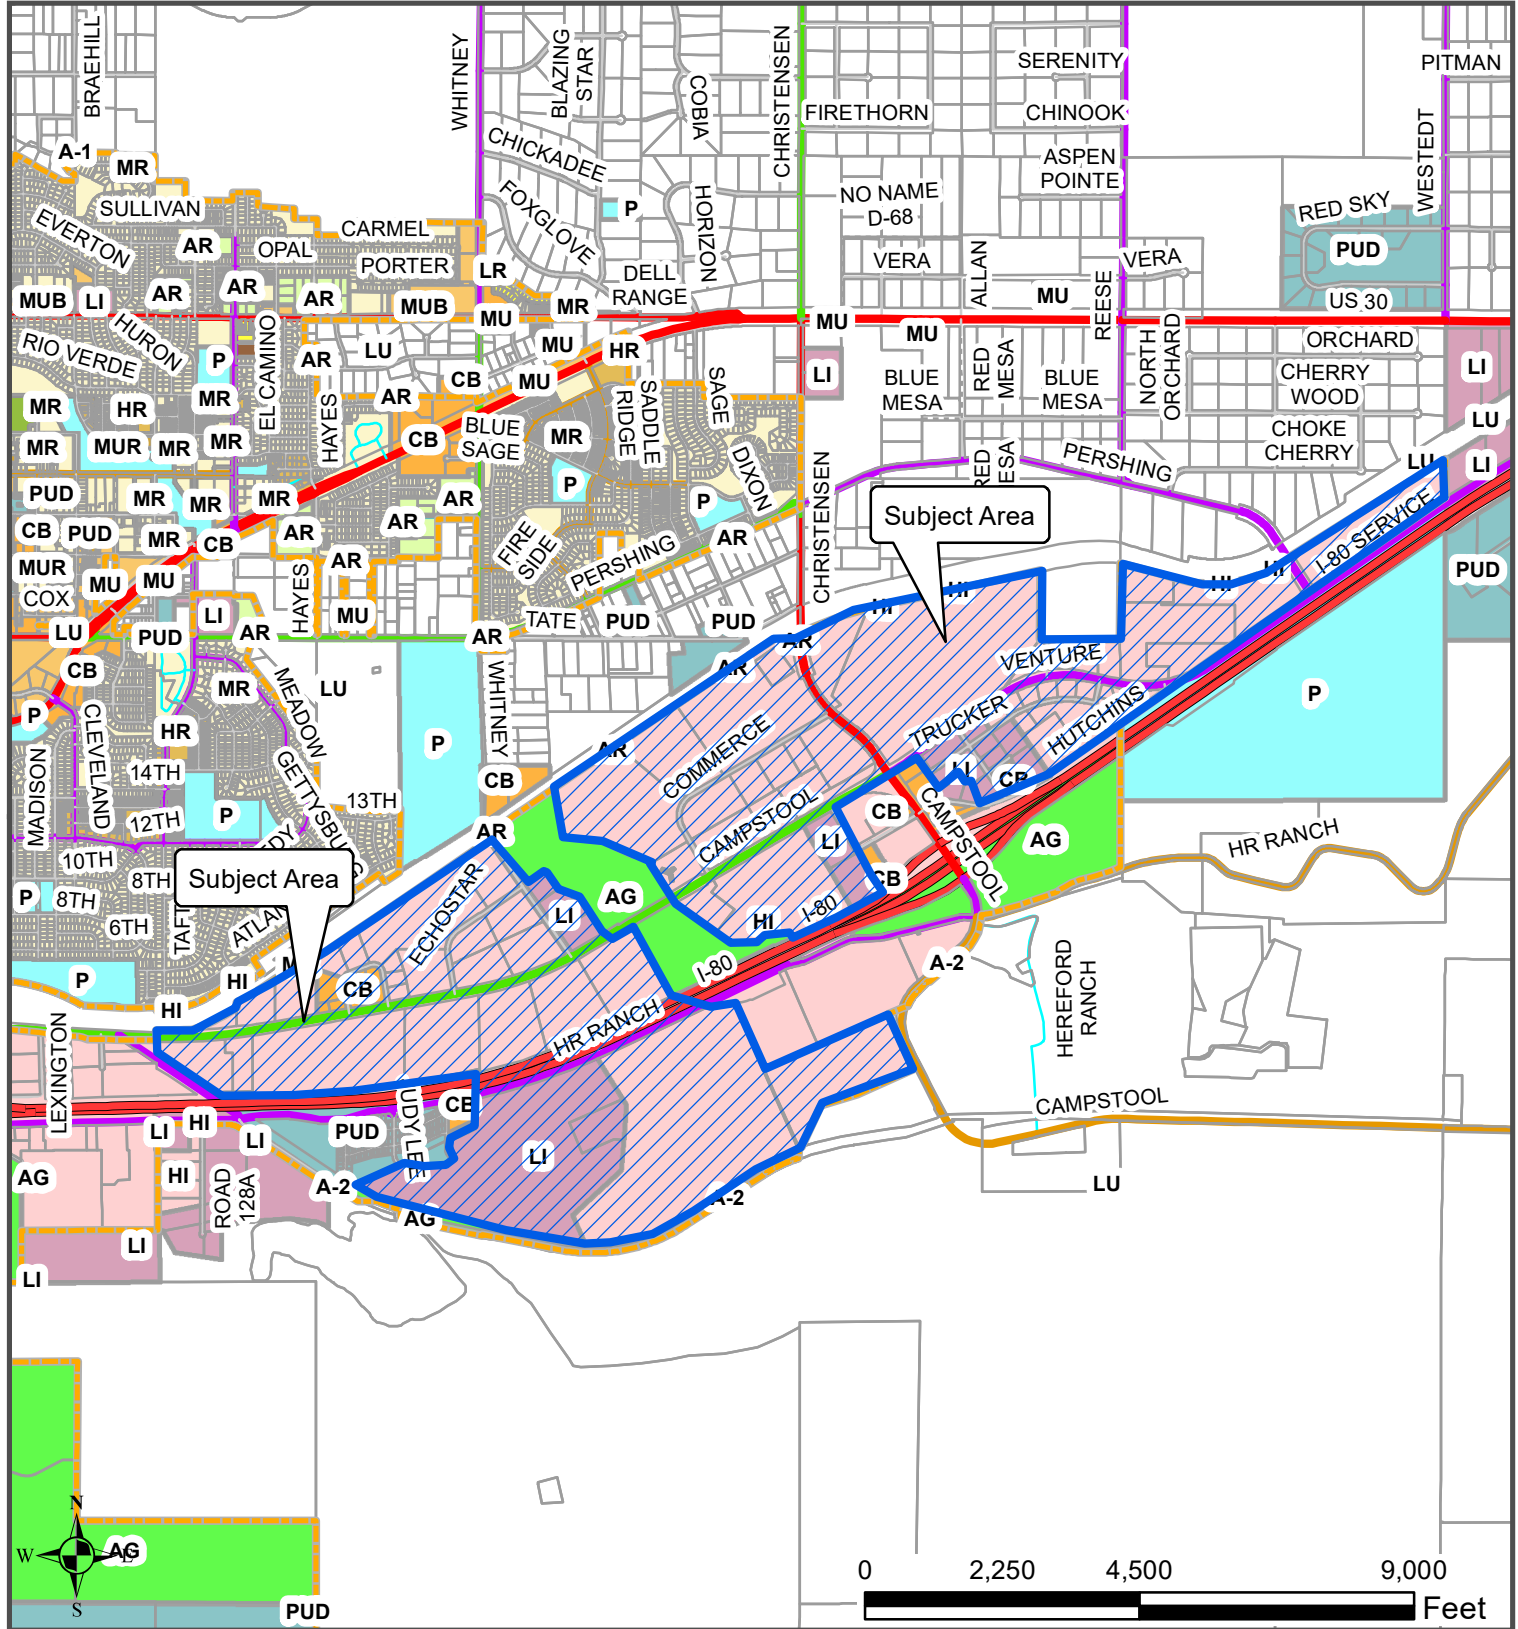

If the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

STAFF RECOMMENDATION:

Staff recommends approval of the rezoning of the properties from LI, HI and CB to BP.
