MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council
From: Morgan Dennis
Subject: PUDC-26-82 Harmony Valley 24th Filing – Final Plat
Date: June 3, 2026

Background:

The item for consideration is a Final Plat. This is approved by Resolution.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral 6/08/2026
- Public Services Committee 6/15/2026
- Final Consideration 6/22/2026

Planning Commission Recommendation:

The Planning Commission heard this item at their June 1, 2026, meeting and recommended the Governing Body approve this application.

The Planning Commission Staff report is attached and has not been changed.

Public Comment

As of the creation of this memo (June 1, 2026), Staff has received no inquiries or comments from the public on this project. The project page on the website has received 103 views and no comments.

CITY OF
CHEYENNE
— PLANNING & DEVELOPMENT —

CITY OF CHEYENNE PLANNING COMMISSION
JUNE 1, 2026
STAFF REPORT

FILE: PUDC-26-82: Harmony Valley 24th Filing (Expedited Review)

REQUEST: Subdivision of one lot into 6 lots.

LOCATION: North of W College Drive, east of Parsley Boulevard, and west of Elsie Jean Trail

APPLICANT: John Sayers

OWNER: Tru Grit Land Development LLC

ZONING: NR-3 Neighborhood Residential – High Density

PURPOSE: A plat creating 6 Lots for residential development.

PREPARED BY: Morgan Dennis, Planner I

RECOMMENDED MOTION:

Move to **approve** Harmony Valley 24th Filing Preliminary Plat, advancing the Final Plat to the Governing Body.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.1.2 Preliminary Plat Approval
- UDC 2.1.3 Final Plat Approval
- UDC Article 4 Subdivisions
- UDC Article 5 Zoning Regulations
- PlanCheyenne

BACKGROUND:

The applicant is requesting approval of a preliminary plat for roughly 6.50 acres of land. The proposed plat would subdivide the parcel into 5 residential lots and 1 common lot. Five of the lots will be the buildings that will be sold to individual owners. The remaining lot is the common space in which building owner will be given 1/5th interest in maintaining the common space to the approved site plan.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning	Land Use
Subject Site	Mixed-Use Commercial	NR-3 – Neighborhood Residential – High Density	Multifamily (under construction)
North	Urban Residential/ Mixed-Use Commercial	MR - Medium-density Residential/Harmony Valley PUD	Single-family Residential Dwellings
South	Urban Residential	County LU	Utility Station, Vacant
East	Mixed-Use Commercial	Harmony Valley PUD	Single-family Residential Dwellings, Multifamily
West	Mixed-Use Employment	County LI	Pipeline Site

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Preliminary Plat, the Commission must make the following findings required in UDC 2.1.2.d – a detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.1.2.d.1)

The Future Land Use Designation for this property is Mixed-Use Commercial. According to the comprehensive plan, this designation supports more commercial, light industrial, or live-work developments that could be “activity centers”. Residential use may be added to these areas in

order to bring in more activity, but their development should be secondary to potential commercial development in the area. If residential developments are within the Mixed-Use Commercial area, there should be more than 8 dwelling units per acre. The ideal location for activity center is along principal arterial or minor arterial streets. This lot is located at the intersection of South Parsley Boulevard and West College Drive, two arterial streets. This results in higher volume of traffic than might be desired in residential areas.

While this area is designated for commercial development, PlanCheyenne does allow for adjustments to be made based off of market demands and needs. Foundation 1 of PlanCheyenne encourages community growth. This development is in response to housing market demands and is within the Urban Service Boundary. The development patterns proposed by this plat are compatible with the designations found on the future land use map.

The application **complies** with this review criterion.

2) The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities. (UDC 2.1.2.d.2)

This plat will have minimal impact on surrounding development. To the north and east, there is residential uses already developed. To the south and west there are industrial sites that have been developed. These sites are already developed and operating with similar or supportive uses of this plat's expected development plans.

The application **complies** with this review criterion.

3) The division of land meets the purposes, intent, and all applicable standards in Article 4. (UDC 2.1.2.d.3)

Community Facility Fees (4.2):

For fees based on acreage, the area of the property is pro-rated to the nearest tenth of an acre. Lands reserved as unbuildable (for right-of-way, detention, parks, remainder lots, etc), are exempt from fees. Per UDC Section 4.2.5, Table 4-2, Land acquisition, Infrastructure, and Enhancement Fees are all payable at the issuance of a building permit for each structure.

Transportation Network (4.3):

This plat is not creating any new Rights-of-Way. There will be two access points along Richard Martin Drive. There are sidewalks that will be connected to an existing system in the area.

Open Space (4.4):

There is currently a site plan undergoing review. It is stated on the site plan, the property will be using existing public open space credit with the addition of deck and balconies on the structures.

Required Improvements (4.5):

This plat appears to be able to provide all required utilities to the lots within this development.

Public Safety Fees (4.6):

Public Safety Fees are required at the time of construction of any residential building on any of the proposed lots. Per UDC Section 4.6.3.b, Public Safety Fees are payable at the issuance of a building permit for each structure.

The application **complies** with this review criterion.

- 4) Any phasing proposed in the application is clearly indicated and demonstrates a logical and well-planned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned. (UDC 2.1.2.d.4)**

No specific phasing is proposed with this project.

Review criterion **not applicable**.

- 5) The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts. (UDC 2.1.2.d.5)**

Drainage:

A drainage study was submitted and reviewed. There were no concerns with drainage at the plat level for the project as presented.

Traffic:

A transportation study was submitted and reviewed. There were no concerns with traffic at the plat level for the project as presented.

The application **complies** with this review criterion.

- 6) Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements. (UDC 2.1.2.d.6)**

The proposed plat is in the NR-3 zone district. Multi-dwelling buildings are a permitted use in this district, meaning that all Multi-dwelling Building Lot Types are allowable in the NR-3 zone district. The Intent and Applicability of the NR-3 zone district is to promote high-density, urban residential neighborhoods where compact neighborhood developments are desired. Lots proposed on the plat are reflective of buildings on the site plan and are buildable in the NR-3 zone.

The application **complies** with this review criterion.

7) All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance. (UDC 2.1.2.d.7)

There are five buildable lots proposed and one non-buildable lot. The one non-buildable lot is designated as common lot that will be maintained by building owners through a shared agreement.

Review criterion **complies** with this review criteria.

8) The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property. (UDC 2.1.2.d.8)

This plat will not create any undue influence on existing or potential development. There are streets on two sides of the area of the proposed plat and the land to the north and east has been developed with residential development.

The application **complies** with this review criterion.

9) The application is not harmful to the public health, safety, and welfare. (UDC 2.1.2.d.9)

City staff is satisfied that this proposed plat would not adversely affect the public health, safety, or general welfare.

The application **complies** with this review criterion.

10) Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description. (UDC 2.1.2.d.10)

Remainder lots are not proposed with this plat.

The application **complies** with this review criterion.

11) The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan. (UDC 2.1.3.d.1)

The Final Plat submitted with the application is substantially similar to the Preliminary Plat submitted.

The application **complies** with this review criterion.

12) The application meets any conditions or modifications of the approved preliminary plat. (UDC 2.1.3.d.2)

Through staff's review, there is no conditions or modifications needed for the plat.

The application **complies** with this review criterion.

13) The application meets the purposes, intent, and applicable standards of Article 4. (UDC 2.1.3.d.3)

As a concurrent Preliminary and Final Plat application, this Final Plat review criterion is covered by the equivalent Preliminary Plat review criterion (subsection 3 above).

The application **complies** with this review criterion.

CONFORMANCE WITH APPLICABLE PLANS:

The project is located in an area covered by the following plans:

- PlanCheyenne

Conformance with PlanCheyenne is covered by review criterion 1.

PUBLIC NOTICE AND PUBLIC COMMENTS RECEIVED:

Although projects have public notice and the opportunity for public comments, projects are required to be approved or denied based on the review criteria (listed above). Public comments relevant to the review criteria may assist the review and discussion on the application.

The public was given notice of the project in the following ways:

- **Legal Notice** in the Wyoming Tribune Eagle published on May 16, 2026.
- **Posted Notice** Evidence of posted notice was provided showing that the signs were posted on May 25, 2026.
- **Internet Posting** on connect.cheyennecity.org on April 10, 2026.

As of the publication of the Staff Report (May 25, 2026), Staff has received no inquiries or comments from the public on this project. The project page on the website has received 49 views and no comments.

STAFF REVIEW:

Through the review process, comments were received regarding the following issues:

1. Technical correction

CONCLUSION:

Staff analysis is that the application meets the review criteria and therefore recommends approval of the expedited plat application with conditions.

ALTERNATIVES:

1. Recommend approval of the expedited preliminary plat, forwarding the Final Plat to the Governing Body.
2. Recommend approval of the preliminary plat with conditions and that a final plat addressing the conditions of approval be prepared and presented to the Governing Body.
3. Recommend approval of the preliminary plat as submitted by the applicant and forward the preliminary plat to the Governing Body.
4. Recommend approval of the preliminary plat subject to staff's recommended conditions and forward the preliminary plat to the Governing Body.
5. Recommend denial of the preliminary plat based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
6. Postpone the project until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

The Planning Commission may modify staff's recommended conditions, delete conditions, add conditions, or decide contrary to staff's recommendation. In the event conditions are modified, the conditions shall relate to applicable review criteria. In the event that the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

STAFF RECOMMENDATION:

Staff recommends approval of the Harmony Valley 24th Filing Preliminary Plat, advancing the Final Plat to the Governing Body.

Park Fees are due at time of signing of the final plat mylar (see UDC 4.2.5). I acknowledge that this plat may be required to pay plat-level Park Fees.*

Public Improvements are required with platting actions. Please select the option that best demonstrates your intent for the public streets and other infrastructure adjacent to or within the plat boundary.* ?

Owner(s) (or developers) behind the plat application will construct the needed infrastructure.

Review Criteria

The following review criteria are found in the UDC regarding a Preliminary Plat. Please acknowledge the proposed plat meets each review criterion by checking the box.

The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan (2.1.2.d.1).*

The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities (2.1.2.d.2).*

The division of land meets the purposes, intent, and all applicable standards in Article 4 (2.1.2.d.3).*

Any phasing proposed in the application is clearly indicated and demonstrates a logical and wellplanned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned (2.1.2.d.4).*

The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts (2.1.2.d.5).*

Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in site design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements (2.1.2.d.6).*

All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance (2.1.2.d.7).*

The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property (2.1.2.d.8).*

The application is not harmful to the public health, safety, and welfare (2.1.2.d.9).*

Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description (2.1.2.d.10).*

The following review criteria are found in the UDC regarding a Final Plat. Please acknowledge the proposed plat meets each review criterion by checking the box.

The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan (2.1.3.d.1).*

The application meets any conditions or modifications of the approved preliminary plat (2.1.3.d.2). (Not applicable at time of application for an expedited plat)

The application meets the purposes, intent, and applicable standards of Article 4 (2.1.3.d.3).*

Certification

I hereby certify that I am the owner, applicant, or agent named herein and that I have familiarized myself with the rules and regulations with respect to the filing of this application and that the foregoing statements and answers contained on this application and accompanying documents are true and accurate to the best of my knowledge.*
