

September 2, 2025

Kylie Soden – City Clerk,

In regard to the parked retail liquor license owned by 1734 Partners, LLC (see attached City Clerk notice dated August 28, 2025), we request that the "parked" status be extended for one year while we work to get our business up and running.

We own the property at 1734 Meadowland Rd in Cheyenne. We were leasing the building to the owners of the Old Chicago restaurant until they shut down their business. We purchased their City of Cheyenne retail liquor license with the intent of using it at that location.

Originally, we had been working with Cowboy Racing, who wanted to lease the property. We were going to use the liquor license to provide alcohol service to the customers of Cowboy Racing. To date, Cowboy Racing is still working to get their business up and running.

In the meantime, we are actively searching for another property in Cheyenne to open a combined Retail Liquor Store and Fuzzy's Taco Shop restaurant. We will need the additional extension so we have time to find the best site for this venture.

Please let me know if you need any additional information to make your decision regarding this request.

Thank you.

Regards,

A handwritten signature in blue ink that reads "John D. Johnson".

RE: Status of City of Cheyenne "parked" retail liquor license

Dear Mr. Johnson:

Pursuant to Wyoming Statute Title 12, Alcoholic Beverages, and Cheyenne City Code, Chapter 5.12, Alcoholic Liquor and Malt Beverages, state law provides for a two-year total time frame in which a liquor license may be "parked", meaning non-operational and not open to the public. Our records indicate the retail liquor license for 1734 Partners has been in a "parked" inoperable status since September 23, 2024. Upon showing a good cause, the governing body may extend the time period in which the business is required to become operational for an additional period not to exceed one year (two-years total).

A request for an extension to park the license for an additional period not to exceed one year (September 23, 2025 – September 23, 2026) must be submitted to our office no later than September 3, 2025 at Noon to allow sufficient time for the Governing Body to review.

Cheyenne [City Code Section 5.12.070](#) provides the definition of "operational" and outlines the restrictions related to "parked" licenses. Once the license becomes operational, it does not qualify to return to a "parked" status in the future unless the license is transferred in either ownership or location, which is contingent upon approval by the governing body. Wyoming Statutes §§12-1-101, *et seq.* provide additional information on liquor licensing and regulations. Statutes may be reviewed on-line through the Wyoming Legislative Service Office's website.

If you have any questions concerning what constitutes "operational", please contact the City Clerk's office at your convenience.
