Samsara Inc. ("Samsara") provides a unique solution for physical operations through its Connected Operations Cloud. This allows organizations to harness Internet of Things (IoT) data to develop actionable insights and improve their safety, efficiency, and sustainability.

Samsara allows customers to use a single physical operations management provider to implement a purpose-built solution instead of sourcing, integrating and adopting point solutions across a variety of vendors. This is possible through Samsara's proprietary data platform, which offers natively-built integration for all of the customer's logistic needs, including but not limited to:

Fleet Operations

- Real-Time Vehicle Telematics (including GPS tracking, routing and dispatch, fuel efficiency management, electric vehicle usage, maintenance, and diagnostics capabilities)
- AI-Enabled Video-Based Safety (including detection of high-risk driving behavior, video records to exonerate drivers following incidents, and coaching workflows to improve training and safety)
- Camera Connectors (includes cables to pull third-party camera feeds into Samsara's Cloud Dashboard)
- Apps and Driver Workflows (including streamlined regulatory compliance, maintenance inspections, compliance logs, and messaging workflows)

Industry-Agnostic Operations

- Equipment Monitoring (including asset tracking and diagnostics for loss and theft control, utilization reports, and preventative maintenance)
- Site Visibility (including remote viewing for IP cameras, improved site security and incident response times, and proprietary AI algorithms to power alerting and search features)

Taken individually, no other provider offers the same feature set, performance, and reliability for any of these applications. Combined, Samsara allows its customers to access all this data with a single sign in through its proprietary software dashboard, which can be tailored through API development by the organization or third parties. This unique "single pane of glass" approach allows for unparalleled visibility into the organization's operations without the need to switch between discrete programs, a unique advantage not offered by other providers. Samsara develops its own ruggedized hardware, which can be quickly and easily installed on site by its customers, and also allows customers to plug directly into OEM systems without Samsara's hardware to maximize convenience and savings. Only Samsara offers these comprehensive and customizable solutions.

Sincerely,

Adam Eltoukhy
Executive Vice President, Chief Legal Officer

Thank you for considering Samsara

Samsara provides real-time visibility, business-relevant tools, and powerful analytics that enable customers to increase the productivity of their fleets and reduce operating costs. A solution for your fleet is proposed below.

What is included?

Samsara's fleet tracking solution includes hardware accessories and a per-gateway license. Gateway licenses provide all ongoing elements of the service, including:

- Real-time location and vehicle telematics
- Dashboard access with unlimited administrator accounts
- Driver App for iOS and Android devices with unlimited driver accounts
- Over-the-air software feature upgrades
- API access as it relates to features for integration with 3rd party systems
- Maintenance and phone support

Samsara does not include hidden costs in its licenses. If you want access to Samsara's full set of fleet features--including but not limited to WiFi hotspot and ELD capabilities--you will need to upgrade your license. Samsara reserves the right to audit usage of features unrelated to the solution as well as remove them from the Samsara Dashboard.

Payment Terms

This order form includes a license fee for the Samsara Software associated with the Hardware to be paid annually beginning on the License Start Date and, if applicable, a one-time Hardware cost to be paid upfront as of the license start date. The annual fees are payable by recurring wire transfer. All transfers made by credit card are subject to a processing fee up to 3%, subject to applicable law. Late payments are subject to a 1.5% per month late fee. If license payments are delinquent by 30 days, Samsara may suspend the Service until late payments are remitted.

License Term

The license term for the Samsara Software licenses purchased under this Order Form begins on the day Samsara activates the applicable Samsara Software license by providing you a claim number and access to the Hosted Software ("License Start Date"). If Hardware associated with a then-unactivated Samsara Software license will be shipped to you under this Order Form, such Samsara Software license will be activated on the day the Samsara Hardware ships. Notwithstanding the foregoing, if you are renewing the license term for a previously-activated Samsara Software license under this Order Form, the License Start Date for the renewal license term shall be the day that Samsara extends your access to the Hosted Software for the renewal license term. Samsara Hardware requires a valid license to function.

Samsara may ship Hardware under this Order Form subject to a schedule as mutually agreed between the Parties or as determined by Samsara. By signing this Order Form, you confirm that each "Ship To" delivery address set forth herein is accurate and that any individual accepting delivery at that address is authorized to do so on your behalf. To the extent such Hardware is associated with then-unactivated Samsara Software licenses, the Samsara Software license

term for each such Hardware device will start on the day that device ships regardless of the shipment schedule for the other such Hardware devices. If all such Hardware is shipped in one shipment, the license term for all such Hardware will be the full license term under this Order Form. If such Hardware is shipped in multiple shipments, only the license term of such Hardware in the initial shipment will be such full license term. The license term of the remaining such Hardware shipped after the initial shipment will be set to match the then-remaining license term of the initial shipment, so that the license term for all such Hardware under this Order Form expires on the same date. The total cost of the licenses for such Hardware shipped after the initial shipment will be pro-rated based on their actual license term, rounded up to the nearest month, as compared to the full license term under this Order Form. Certain payment amounts under this Order Form assume that the entire order is fulfilled at the same time and are subject to potential reduction based on the actual schedule of order fulfillment.

You agree that you will only use the features included with the Samsara Software licenses purchased under this Order Form ("Licensed Scope"). Samsara reserves the right to audit usage of Samsara Software and to remove your access to such features beyond the Licensed Scope (for example, the licensed feature scope or licensed user count, as applicable) at any time. If you would like to use features beyond the Licensed Scope, you are required to purchase the applicable Samsara Software licenses and if applicable install the applicable Hardware that include such scope. If Samsara becomes aware that you are using features beyond the Licensed Scope, Samsara reserves the right to charge you for the applicable Samsara Software licenses that include such Licensed Scope at list price, and you agree to immediately pay such amounts. Samsara further reserves the right to change, discontinue, or remove features included in a Samsara Software license at any time.

You acknowledge and agree that, during your license term, you may not downgrade your Samsara Software license plan to a lower Samsara Software license plan (e.g., downgrading your "Enterprise" license to a "Premier" license).

Support And Warranty

Samsara stands behind its Products. During the applicable warranty period, defective Hardware will be remedied pursuant to our Hardware Warranty Policy at www.samsara.com/support/hardware-warranty. Additional support information can be found at www.samsara.com/support.
