Please explain your interest in serving on this Board/Committee/Commission

As one born and raised in Cheyenne, and a member of the county and state historical societies, I have a long interest in Cheyenne history and particular in observation of all of Cheyenne's structures and buildings. I would enjoy participating in discussions about the resolution and potential preservation of history and buildings with local history. I would hope to contribute via discussions, solicitation of expert opinions, and application of my reading on local history, application of my interest in architecture, and application of my woodworking knowledge, and application of my engineering background. Overall, I am continuously looking for opportunities to participate as a member of a Cheyenne board or council and assist the community which has been integral to my development. I feel strongly that items and buildings with attached stories of our history should be preserved if possible, but through a rigorous process providing understanding of inputs, pros, cons, costs, and fund sources. I have considered applying to this board in the past, but felt at those times I was unable to commit the time. Now, I do have the time and the continued interest. I look forward to speaking with someone regarding the Historic Preservation Board opportunity.

Please explain your interest in serving on this Board/Committee/Commission

I am interested in serving on the Board of Adjustment because I value thoughtful community development and believe it is important that zoning decisions are made fairly, consistently, and in accordance with the city's regulations. Having been born and raised in this community, I have a strong appreciation for its character, growth, and the importance of making land-use decisions that serve both current residents and future generations.

Professionally, I have worked as a paralegal for seven years, which has given me experience reviewing complex information, interpreting regulations, conducting research, and approaching decisions objectively and thoughtfully. In addition, I have

experience managing Laramie County's risk management program and overseeing compliance with state and federal regulations. These roles have strengthened my ability to analyze facts, evaluate risks, apply policies consistently, and make sound decisions while ensuring adherence to legal and regulatory requirements.

I understand the importance of due process, careful analysis, and applying rules fairly and consistently, skills that align well with the Board's quasi-judicial responsibilities. I would welcome the opportunity to contribute by carefully reviewing variances, conditional use approvals, and appeals, listening to all perspectives, and making impartial decisions based on the facts, applicable regulations, and the intent of the zoning code.

I am committed to approaching each matter with an open mind and balancing individual property rights with the broader interests of the community. Serving on the Board of Adjustment would allow me to give back to the city I have always called home while helping ensure that land use decisions are transparent, equitable, and consistent with established standards.

Other City or community volunteer experience

Founding Board Member of Cheyenne Young Professional

Skills & Experience

legal research, fact finding, and interpreting statutes, regulations, policies, and procedures. Experience working within government operations and regulatory framework.
